Statistics and Probability: Mean and Standard Deviation, Investigations of Data Sets and Reports.  
11+ Maths Year 5-7 Testbook 2 Coordination Group Publication  
This classwork/homework book supplements the textbook 70 Times 7 Math (An All-In-One Math Book for Grades Kindergarten Through 5th). The assignments are meant to provide students individual practice solving problems taught in their textbooks and to equip them to do well on the corresponding tests. There are four classwork assignments to help prepare students for each exam. (Both paper and computer-based tests are available and can be purchased from the Habakkuk Educational Materials website at <https://www.habakkuk.net/>. Answer keys to this book can also be purchased from the website.) Refer to the schedules on pages 5-6 to determine how much time should be allotted for students to complete an assignment. For 3rd through 5th-grade students, they should complete one of the assignments weekly and then take the test at the end of the fifth week. For homework the 5th week, they can correct any errors from previous assignments. Primary-grade students (those in grades kindergarten through 2nd) are granted more time to complete their classwork. Each week's classwork will be in the same format as the test. If there are, let's say, 100 problems on an upcoming test, students in grades 3rd through 5th would complete all 100 of those types of problems each week for four weeks, although the answers to corresponding problems will differ from one week to the next. Questions included on the classwork and tests are not randomly selected from the chapters in focus. Instead, they are very comprehensive in that every type of problem students learn about in their textbook or complete as a class on the interactive whiteboard will also be solved individually by students on the classwork assignments and corresponding tests. Moreover, page numbers where students can turn to for help in their textbooks are specified at the beginning of the assignments and (in the case of the assignments exclusively for grades 3rd through 5th) beside the individual problems. (Tutorial videos are available in the electronic textbooks.) The classwork is graded by the teacher and the number of problems missed on each page can be recorded at the bottom (-0, -3, etc.). It is recommended that students be allowed to correct any problems with checkmarks before the final grade for the assignment is determined. Correcting errors from the classwork tends to help students to do better on the tests. Time should be allotted daily for students to work on these assignments. To contact Habakkuk Educational Materials, please visit the website below. <https://www.habakkuk.net/>  
**Bond 11+: Maths: Assessment Papers** 70 Times 7 Math
