The Shanghai school system has attracted worldwide attention since its  
impressive performance in the Programme for International Student  
Assessment (PISA) in 2009. The system ranks as a ' stunning success '  
according to standards of the Organisation for Economic Co-operation  
and Development (OECD). Shanghai also stands out for having the  
world ' s highest percentage of ' resilient students ' – students from  
socio-economically disadvantaged backgrounds who emerge as top  
performers. Learning From Shanghai: Lessons on Educational Success  
offers a close-up view of the people and the policies that have achieved  
such world-class performance. Based on research and personal observation  
gathered during the author ' s recent field work with school principals,  
teachers and students, this book explores the factors that explain  
Shanghai ' s exceptional success in education. The approach combines  
high standards of scholarly research and analysis with the author ' s unique  
personal insights, as evidenced by chapters entitled Education is Filling a  
Bucket and Lighting a Fire and Tiger Mothers, Dragon Children. Drawing  
on her experience as an education professional and a teacher of teachers,  
Charlene Tan thoroughly examines and analyzes the people, the policies  
and the practices that distinguish Shanghai educators. The contents  
include comprehensive details on the Shanghai approach to quality  
education, from discussion of the balance between centralization and  
decentralization, to school autonomy and accountability, to testing policy  
and professional development for teachers. The book includes detailed  
tables on curriculum and school performance targets, sample appraisal  
forms for teachers and students, and dozens of photographs. The author is
