John Mighton's JUMP program is changing the way math is taught, and his powerful math workbooks give children the tools they need to master this crucial subject. The key is a step-by-step teaching method that isolates and describes concepts so clearly that anyone can understand them: students build on their successes, becoming proficient at solving problems with confidence and enthusiasm. Now, parents and caregivers can bring the JUMP program home. These workbooks follow the current student worksheets used by JUMP tutors and classroom teachers, including: an introduction for parents and caregivers that clearly explains the thinking behind the program and provides hours of activities, worksheets carefully designed to enable children to move from one success to the next, a glossary of math terms, and a selected answer key.

Math Mammoth Grade 7 Review Workbook is intended to give students a thorough review of pre-algebra/7th grade math. It has both topical as well as mixed (spiral) review worksheets, and includes both topical tests and a comprehensive end-of-the-year test. The tests can also be used as review worksheets, instead of tests. You can use this workbook for various purposes: for summer math

practice, to keep a child from forgetting math skills during other break times, to prepare students who are going into algebra 1, or to give pre-algebra students extra practice during the school year. The topics reviewed in this workbook are: basics of algebra, integers, one-step equations, rational numbers, equations and inequalities, ratios and proportions, percent, geometry, the Pythagorean Theorem, probability, statistics. In addition to the topical reviews and tests, the workbook also contains many cumulative (spiral) review pages. The content for these is taken from Math Mammoth Grade 7 Complete Curriculum. However, the content follows a typical pre-algebra course, so this workbook can be used no matter which math curriculum you follow. Please note this book does not contain lessons or instruction for the topics. It is not intended for initial teaching. It also will not work if the student needs to completely re-study these topics (the student has not learned the topics at all). For that purpose, please consider Math Mammoth Grade 7 Complete Curriculum, which has all the necessary instruction and lessons.
