area well - this was
where, in the dry

season of 1969, his battalion was obliterated by American napalm and helicopter gunfire. Kien was one of only ten survivors. This book is his attempt to understand the eleven years of his life he gave to a senseless war. Based on true experiences of Bao Ninh and banned by the communist party, this novel is revered as the 'All Quiet on the Western Front for our

era'.

Michel L'Herpinierre arrived in Hanoi as a teenager in the years before World War II. He fell in love with the country and the people, but gradually became aware that not all those around him felt the same way. Michel's story, brilliantly recreated by his stepdaughter Mandaley Perkins, is inevitably entwined with the history of Vietnam: the rise of the nationalist movement; the Japanese occupation; the revolution by the Vietminh

and the United States' refusal to aid a 'colonial regime'; and the chaotic and tragic aftermath of World War II. In the heat and passion of the time, nothing and no-one can be read on the surface. Hanoi, Adieu is an intimate and compelling journey through the exotic and tumultuous final decades of French Indochina, as well as a moving story of love and loss. Mano Majra is a place, Khushwant Singh tells us at the beginning of this classic novel, where Sikhs and Muslims have lived together in peace for hundreds of years. Then one day, at the end of the summer, the 'ghost train' arrives, a silent, incredible funeral train loaded with the bodies of thousands of refugees, bringing the village its first taste of the horrors of the civil war. *Train to Pakistan* is the story of this isolated village that is plunged into the abyss of religious hate. It is also the story of a Sikh boy and a Muslim girl whose love

endures and transcends the ravages of war. *Minefields and Miniskirts* Grove Press
For over thirty years, the world's ideologies have been fought out in the ricefields and jungles, the towns and cities of Indochina. In this remarkable eye-witness account the author has condensed all his experiences and observations of those wars into a series of graphic images. Sights, sounds, and smells come alive in a vivid recreation

of one of the most tragic battlegrounds of modern history. The author, a TV reporter and journalist, has a unique knowledge of this troubled area having visited it many times while covering three successive wars - the war against French colonialism, the American involvement in Vietnam, and the final devastation of Kampuchea, as the French, the Americans and the Khmer Rouge have each in turn tried to impose their own version of freedom upon others

by force. This is a major new account of the most important area of conflict in modern times.

What does it mean for human beings to exist in an era of dronified state violence? How can we understand the rise of robotic systems of power and domination? Focusing on U.S. drone warfare and its broader implications as no other book has to date, Predator Empire argues that we are witnessing a

transition from a labor-intensive “American empire” to a machine-intensive “Predator Empire.” Moving from the Vietnam War to the War on Terror and beyond, Ian G. R. Shaw reveals how changes in military strategy, domestic policing, and state surveillance have come together to enclose our planet in a robotic system of control. The rise of drones presents a series of “existential crises,” he suggests, that are reengineering not only spaces of violence but also the

character of the modern state. Positioning drone warfare as part of a much longer project to watch and enclose the human species, he shows that for decades—centuries even—human existence has slowly but surely been brought within the artificial worlds of “technological civilization.” Instead of incarcerating us in prisons or colonizing territory directly, the Predator Empire locks us inside a worldwide system of electromagnetic enclosure—in which democratic ideals give way to a system of

totalitarian control, a machinic “rule by Nobody.” As accessibly written as it is theoretically ambitious, Predator Empire provides up-to-date information about U.S. drone warfare, as well as an in-depth history of the rise of drones.

Intense, powerful, and compelling, Matterhorn is an epic war novel in the tradition of Norman Mailer’s *The Naked and the Dead* and James Jones’s *The Thin Red Line*. It is the timeless story of a young Marine lieutenant, Waino Mellas, and his

comrades in Bravo Company, who are dropped into the mountain jungle of Vietnam as boys and forced to fight their way into manhood. Standing in their way are not merely the North Vietnamese but also monsoon rain and mud, leeches and tigers, disease and malnutrition. Almost as daunting, it turns out, are the obstacles they discover between each other: racial tension, competing ambitions, and duplicitous superior officers. But when the company finds itself surrounded and outnumbered by a massive enemy regiment, the Marines are thrust into the raw and all-consuming terror of combat. The experience will change them forever. Written by a

highly decorated Marine veteran over the course of thirty years, Matterhorn is a spellbinding and unforgettable novel that brings to life an entire world—both its horrors and its thrills—and seems destined to become a classic of combat literature.

In three straight years he was a paratrooper, and army seaman, and a LRRP—and he lived to tell about it. As an FNG paratrooper in the 173d Airborne, John Leppelman made that unit's only combat jump in Vietnam. Then he spent months in fruitless search of the enemy, watching as his buddies died because of poor

leadership and lousy weapons. Often it seemed the only way out of the carnage in the Central highlands was in a body bag. But Leppelman did get out, transferring first to the army's riverboats and then the all-volunteer Rangers, one of the ballsiest units in the war. In three tours of duty, that ended only when malaria forced him back to the States, Leppelman saw the war as few others did, a Vietnam that many American boys didn't live to tell about, but whose valor and sacrifice survive on these pages.

Winner of the 2016 Pulitzer Prize for Fiction Winner of the 2016 Edgar Award for Best First Novel Winner of the 2016 Andrew Carnegie Medal for Excellence in Fiction “[A] remarkable debut novel”—Philip Caputo, *New York Times Book Review* (cover review) The winner of the Pulitzer Prize for Fiction, as well as seven other awards, *The Sympathizer* is one of the most acclaimed books of the twenty-first century. With the pace and suspense of a thriller and prose that has

been compared to Graham Greene and Vladimir Nabokov, *The Sympathizer* is a sweeping epic of love and betrayal. The narrator, a communist double agent, is a “man of two minds,” a half-French, half-Vietnamese army captain who comes to America after the Fall of Saigon, and while building a new life with other Vietnamese refugees in Los Angeles is secretly reporting back to his communist superiors in Vietnam. *The Sympathizer* is a blistering exploration of identity and

America, a gripping spy novel, and a powerful story of love and friendship.

Fallen Angels by Walter Dean Myers is a young adult novel about seventeen-year-old Richie Perry, a Harlem teenager who volunteers for the Army when unable to afford college and is sent to fight in the Vietnam War. Perry and his platoon—Peewee, Lobel, Johnson, and Brunner—come face-to-face with the Vietcong, the harsh realities

of war, and some dark truths about themselves. A thoughtful young man with a gift for writing and love of basketball, Perry learns to navigate among fellow soldiers under tremendous stress and struggles with his own fear as he sees things he'll never forget: the filling of body bags, the deaths of civilians and soldier friends, the effects of claymore mines, the fires of Napalm, and jungle diseases like Nam Rot. Available as an e-book for the first time on the 25th anniversary of its publication,

Fallen Angels has been called one of the best Vietnam War books ever and one of the great coming-of-age Vietnam War stories. Filled with unforgettable characters, not least Peewee Gates of Chicago who copes with war by relying on wisecracks and dark humor, Fallen Angels “reaches deep into the minds of soldiers” and makes “readers feel they are there, deep in the heart of war.” Fallen Angels has won numerous awards and honors, including the Coretta Scott King Award, an ALA Best

Book for Young Adults, a Booklist Editors Choice, and a School Library Journal Best Book. *Fallen Angels* was #16 on the American Library Association's list of the most frequently challenged books of 1990–2000 for its realistic depiction of war and those who fight in wars.

“The best damned book from the point of view of the infantrymen who fought there.”—*Army Times* Among the best books ever written about men in combat, *The Killing Zone* tells the story of the platoon of Delta One-six, capturing what it meant to face lethal danger, to follow orders, and to search for the conviction and then the hope that this war was worth the sacrifice. The book includes a new chapter on what happened to the platoon members when they came home.

“[The] book makes you care what happens to its main protagonist, the U.S. Postal Service itself. And, as such, it leaves you at the end in suspense.” —*USA Today* Founded by Benjamin Franklin, the United States Postal Service was the information network that bound far-flung Americans together, and yet, it is slowly vanishing. Critics say it is slow and archaic. Mail volume is down. The workforce is shrinking. Post offices are closing. In *Neither Snow Nor Rain*, journalist Devin Leonard tackles the fascinating, centuries-long history of the

USPS, from the first letter carriers through Franklin's days, when postmasters worked out of their homes and post roads cut new paths through the wilderness. Under Andrew Jackson, the post office was molded into a vast patronage machine, and by the 1870s, over seventy percent of federal employees were postal workers. As the country boomed, USPS aggressively developed new technology, from mobile post offices on railroads and airmail service to mechanical sorting machines and optical character readers. *Neither Snow Nor Rain* is a rich, multifaceted history,

full of remarkable characters, from the stamp-collecting FDR, to the revolutionaries who challenged USPS's monopoly on mail, to the renegade union members who brought the system—and the country—to a halt in the 1970s. "Delectably readable . . . Leonard's account offers surprises on almost every other page . . . [and] delivers both the triumphs and travails with clarity, wit and heart." —Chicago Tribune

Ranked in the "Top 10 Military Books of 2018" by Military Times. "In war, destruction is everywhere. It eats everything around you. Sometimes it eats at you." —Major Scott Huesing, Echo Company Commander

From the winter of 2006 through the spring of 2007, two-hundred-fifty Marines from Echo Company, Second Battalion, Fourth Marine Regiment fought daily in the dangerous, dense city streets of Ramadi, Iraq during the Multi-National Forces Surge ordered by President George W. Bush. The Marines' mission: to kill or capture anti-Iraqi forces. Their experience: like being in Hell. Now Major Scott A. Huesing, the commander who led Echo Company through Ramadi, takes readers back to the streets of Ramadi in a visceral, gripping portrayal of modern urban combat. Bound together by brotherhood, honor, and the horror they faced, Echo's Marines battled day-to-day on the frontline of a totally different kind of war, without rules, built on chaos. In Echo in Ramadi, Huesing brings these resilient, resolute young men to life and shows how the savagery of urban combat left indelible scars on their bodies, psyches, and souls. Like war classics *We Were Soldiers*, *The Yellow Birds*, and *Generation Kill*, *Echo in Ramadi* is an unforgettable capsule of one company's experience of war that will leave readers stunned.

A prize-winning writer offers “an affecting portrait of his childhood home, Leech Lake Indian Reservation, and his people, the Ojibwe” (The New York Times). A member of the Ojibwe of northern Minnesota, David Treuer grew up on Leech Lake Reservation, but was educated in mainstream America. Exploring crime and poverty, casinos and wealth, and the preservation of native language and culture, *Rez Life* is a strikingly original blend of history, memoir, and journalism, a must read for anyone interested in the Native

American story. With authoritative research and reportage, he illuminates issues of sovereignty, treaty rights, and natural-resource conservation. He traces the policies that have disenfranchised and exploited Native Americans, exposing the tension that marks the historical relationship between the US government and the Native American population. Ultimately, through the eyes of students, teachers, government administrators, lawyers, and tribal court judges, he shows how casinos, tribal government, and the Bureau of Indian

Affairs have transformed the landscape of modern Native American life. “Treuer’s account reads like a novel, brimming with characters, living and dead, who bring his tribe’s history to life.”

—Booklist “Important in the way Dee Brown’s *Bury My Heart at Wounded Knee* was when it came out in 1970, deeply moving readers as it schooled them about Indian history in a way nothing else had.” —Minneapolis Star-Tribune “[A] poignant, penetrating blend of memoir and history.” —People

The bloody monthlong battle for the Citadel in Hue pitted U.S. Marines against an entrenched North Vietnamese Army force. By official accounts it was a tactical and moral victory for the Marines and the United States. But here survivor Nicholas Warr describes with urgency and outrage the Marines' savage house-to-house fighting--ordered without air, naval, or artillery support by officers with no experience in that type of combat. Sparing few

in the telling, Warr's firsthand narrative tells of desperate Marine suicide charges and of the Marines' selfless devotion to their comrades. His riveting account of the most vicious urban combat since World War II offers an unparalleled view of how a small-unit commander copes with the conflicting demands and responsibilities thrust upon him by the enemy, his men, and the chain of command.

James Webb's classic, scorching

novel of the Vietnam War. They each had their reasons for becoming a Marine. They each had their illusions. Goodrich came fresh from Harvard. Snake got the tattoo before he even got the uniform. Hodges was haunted by the spirits of family heroes. Three young men, from vastly different worlds, were plunged into a white-hot, murderous melting pot of jungle warfare in the An Hoa Basin, Vietnam, 1969. They had no way of knowing what awaited them. For nothing could have prepared them for the madness of what they found. And in the heat and horror of battle they took on new identities, took on each other, and were reborn in fields of fire... Fields of Fire is a searing story of

poetic power, razor-sharp observation, and non-stop combat, perfect for fans of Tim O'Brien, Karl Marlantes and Apocalypse Now. Praise for Fields of Fire 'Few writers since Stephen Crane have portrayed men at war with such a ring of steely truth' The Houston Post 'A novel of such fullness and impact, one is tempted to compare it to Norman Mailer's The Naked and the Dead' The Oregonian 'Webb gives us an extraordinary range of acutely observed people, not one a stereotype ... Fields of Fire is a stunner' Newsweek 'Webb pulls off the scabs and looks directly, unflinchingly on the open wounds of the Sixties' Philadelphia Inquirer 'The unmistakable sound

We have a strong instinct to belong to small groups defined by clear purpose and understanding--"tribes." This tribal connection has been largely lost in modern society, but regaining it may be the key to our psychological survival. Decades before the American Revolution, Benjamin Franklin lamented that English settlers were constantly fleeing over to the Indians-but Indians almost never did the same. Tribal society has been exerting an almost gravitational pull on Westerners for hundreds of

years, and the reason lies deep in our evolutionary past as a communal species. The most recent example of that attraction is combat veterans who come home to find themselves missing the incredibly intimate bonds of platoon life. The loss of closeness that comes at the end of deployment may explain the high rates of post-traumatic stress disorder suffered by military veterans today. Combining history, psychology, and anthropology, Tribe explores what we can learn from tribal societies about loyalty, belonging, and the

eternal human quest for meaning. It explains the irony that-for many veterans as well as civilians-war feels better than peace, adversity can turn out to be a blessing, and disasters are sometimes remembered more fondly than weddings or tropical vacations. Tribe explains why we are stronger when we come together, and how that can be achieved even in today's divided world.
