In *Mountain, Water, Rock, God*, Luke Whitmore situates the disastrous flooding that fell on the Hindu Himalayan shrine of Kedarnath in 2013 within a broader religious and ecological context. Whitmore explores the longer story of this powerful realm of the Hindu god Shiva through a holistic

theoretical perspective that integrates phenomenological and systems-based approaches to the study of religion, pilgrimage, place, and ecology. He argues that close attention to places of religious significance offers a model for thinking through connections between ritual, narrative, climate destabilization, tourism, development, and disaster, and he shows how these critical components of human life in the twenty-first century intersect in the human experience of place.

Mirza Asadullah Khan (1797 – 1869), popularly, Ghalib, is the most influential poet of the Urdu language. He is noted for the ghazals he

wrote during his lifetime, which have since been interpreted and sung by different people in myriad ways. Ghalib ' s popularity has today extended beyond the Indian subcontinent to the Hindustani diaspora around the world. In this book, Gopi Chand Narang studies Ghalib ' s poetics by tracing the archetypical roots of his creative consciousness and enigmatic thought in Buddhist dialectical philosophy, particularly in the concept of shunyata. He underscores the importance of the Mughal era ' s Sabke Hindi poetry, especially through Bedil, whom

Ghalib considered his mentor. The author also engages with Ghalib criticism that has flourished since his death and analyses the important works of the poet, including pieces from early Nuskhas and Divan-e Ghalib, strengthening this central argument. Much has been written about Ghalib ' s life and his poetry. A marked departure from this dominant trend, Narang ' s book looks at Ghalib from different angles and places him in the galaxy of the great Eastern poets, stretching far beyond the boundaries of India and the Urdu language.

## Good Dog, Bad Dog

HarperCollins

The book presented here is the first work of Western literary criticism to examine the Hindi laghukath - a modern Indian prose genre that has been published since the 1970s in Hindi newspapers and magazines and is characterised by its concise form (500 words on average) and socio-political agenda. The importance of the genre within the Hindi literary scene lies in the fact that the laghukath is based on indigenous genres which have been modernised, whereas the Hindi short story and the novel are Western genres that have been appropriated and Indianised. A thorough

investigation of around 280 primary texts accompanied by an evaluation of the relevant Hindi criticism gives a comprehensive literary analysis of this genre and its historical development. This allows, in conclusion, to delineate an "ideal type" of laghukath , suggesting a range of compulsory, desirable and optional features. English translations of almost 50 representative Hindi texts complete the picture and thus provide an insight into this genre so far unknown to a Western audience.
