One of the most forceful indictments of colonialism ever written and a masterpiece of Dutch literature, in an esteemed translation by an award-winning translator Max Havelaar—a Dutch civil servant in Java—burns with an insatiable desire to end the ill treatment and

oppression inflicted on the native peoples by the colonial administration. Max is an inspirational figure, but he is also a flawed idealist whose vow to protect the Javanese from cruelty ends in his own downfall. In *Max Havelaar*, Multatuli (pseudonym for Eduard Douwes Dekker) vividly recreated his own experiences in Java and tellingly depicts the hypocrisy of those who gained from the corrupt coffee trade. Sending shockwaves through the Dutch nation when it was published in 1860, this damning exposé of the terrible conditions in the colonies led to welfare reforms in Java and continues to inspire the Fairtrade movement today. Roy Edwards's vibrant translation conveys the satirical and innovative style of Multatuli's autobiographical polemic. In his introduction, R. P. Meijer discusses the author's tempestuous life and career, the controversy the novel aroused, and its unusual narrative structure.

Company" is a culturally and socially significant 1860 novel by Multatuli (the pen name of Eduard Douwes Dekker) which was to play a key role in shaping and modifying Dutch colonial policy in the Dutch East Indies in the nineteenth and early twentieth century. In the novel, the protagonist, Max Havelaar, tries to battle against a corrupt government system in Java, which was a Dutch colony at the time. Eduard Douwes Dekker (2 March 1820 – 19 February 1887), better known by his pen name Multatuli (from Latin multa tuli, "I have suffered much"), was a Dutch writer famous for his satirical novel, Max Havelaar (1860), which denounced the abuses of colonialism in the Dutch East Indies (today's Indonesia). This edition is in the original Dutch language.

Brings together new research that lays out the current state of contagion studies, from the perspective of media studies, monster studies, and the medical humanities. Offers fresh perspectives on contagion studies from disciplines such as the social sciences and the medical humanities, introducing new methods of collaboration and avenues of research, and demonstrating how these disciplines have already been working in parallel for several decades. Covers a wide variety of international media and contexts, including literature, film, television, public

policy, and social networks. Includes key, recent case studies (including public health documents and the popular Netflix series Santa Clarita Diet) that have not yet been analysed anywhere else in the field. Bucks the current trend of going back to plague literature and historical plagues in the search for meaning to address current and late-20th century epidemics, diseases, and monsters.

Continuing his epic trilogy of the Haitian slave uprising, Madison Smartt Bell 's Master of the Crossroads delivers a stunning portrayal of Toussaint Louverture, former slave, military genius and liberator of Haiti, and his struggle against the great European powers to free his people in the only successful slave revolution in history. At the outset, Toussaint is a second-tier general in the Spanish army, which is supporting the rebel slaves ' fight against the French. But when Toussaint is betrayed by his former allies and the commanders of the Spanish army, he reunites his army with the French, wresting vital territories and manpower from Spanish control. With his army one among several factions, Toussaint eventually rises as the ultimate victor as he wards off his enemies to take control of the French colony and establish a new constitution. Bell 's grand, multifaceted novel shows a nation, splintered by actions and in the throes of chaos, carried to liberation and justice through the undaunted tenacity of one incredible visionary.

book brings readers into a sustained and inclusive conversation, one where academic and industrial thought leaders, coffee farmers, and baristas are quoted, each informing and enriching each other. This unusual approach guides the reader on a journey from coffee farmer to roaster, market analyst to barista, in a style that is both rigorous and experience based, universally relevant and personally engaging. From on-farming processes to consumer benefits, the reader is given a deeper appreciation and understanding of coffee's complexity and is invited to form their own educated opinions on the ever changing situation, including potential routes to further shape the coffee future in a responsible manner. Presents a novel synthesis of coffee research and real-world experience that aids understanding, appreciation, and potential action. Includes contributions from a multitude of experts who address complex subjects with a conversational approach. Provides expert discourse on the coffee value chain, from agricultural and production practices, sustainability, post-harvest processing, and quality aspects to the economic analysis of the consumer value proposition. Engages with the key challenges of future coffee production and potential solutions.

We are told that simply by sipping our morning cup of organic, fair-trade coffee we are encouraging environmentally friendly agricultural methods, community development, fair prices, and shortened commodity chains. But what is the reality for producers, intermediaries, and consumers? This ethnographic analysis of fair-trade coffee analyzes the collective action and combined efforts of fair-trade network participants to construct a new economic reality. Focusing on La Voz Que Clama en el Desierto-a cooperative in San Juan la Laguna, Guatemala-and its relationships with coffee roasters, importers, and certifiers in the United States, Coffee and Community argues that while fair trade does benefit small coffee-farming communities, it is more flawed than advocates and scholars have acknowledged. However, through detailed ethnographic fieldwork with the farmers and by following the product, fair trade can be understood and modified to be more equitable. This book will be of interest to students and academics in anthropology, ethnology, Latin American studies, and labor studies, as well as economists, social scientists, policy makers, fair-trade advocates, and anyone interested in globalization and the realities of fair trade.

A New York Times Book Review Editors' Choice "Extremely wide-ranging and well researched . . . In a tradition of protest literature rooted more in William Blake than in Marx." —Adam Gopnik, *The New Yorker* The epic story of how coffee connected and divided the modern world Coffee is an indispensable part of daily life for billions of people around the world. But few coffee drinkers know this story. It centers on the volcanic highlands of El Salvador, where James Hill, born in the slums of Manchester, England, founded one of the world's great coffee dynasties at the turn of the twentieth century. Adapting the innovations of the Industrial Revolution to plantation agriculture, Hill helped turn El Salvador into perhaps the most intensive monoculture in modern history—a place of extraordinary productivity, inequality, and violence. In the process, both El Salvador and the United States earned the nickname "Coffeeland," but for starkly different reasons, and with consequences that reach into the present. Provoking a reconsideration of what it means to be connected to faraway people and places, *Coffeeland* tells the hidden and surprising story of one of the most valuable commodities in the history of global capitalism.

Max Havelaar ; Or, The Coffee Auctions of the Dutch Trading Company New York Review of Books

From the acclaimed Nobel Prize winner: At the close of the 17th century, Iceland is an oppressed Danish colony, suffering under

extreme poverty, famine, and plague. A farmer and accused cord-thief named Jon Hreggvidsson makes a bawdy joke about the Danish king and soon after finds himself a fugitive charged with the murder of the king's hangman. In the years that follow, the hapless but resilient rogue Hreggvidsson becomes a pawn entangled in political and personal conflicts playing out on a far grander scale. Chief among these is the star-crossed love affair between Snaefridur, known as "Iceland's Sun," a beautiful, headstrong young noblewoman, and Arnas Arnaeus, the king's antiquarian, an aristocrat whose worldly manner conceals a fierce devotion to his downtrodden countrymen. As their personal struggle plays itself out on an international stage, Laxness creates a Dickensian canvas of heroism and venality, violence and tragedy, charged with narrative enchantment on every page. Sometimes grim, sometimes uproarious, and always captivating, *Iceland's Ball* is at once an updating of the traditional Icelandic saga and a caustic social satire.

THE FIRST ENGLISH TRANSLATION OF A POSTWAR MASTERPIECE 'I work in an office. I take cards out of a file. Once I have taken them out, I put them back in again. That is it.' Twenty-three-year-old Frits - office worker, daydreamer, teller of inappropriate jokes - finds life absurd and inexplicable. He lives with his parents, who drive him mad. He has terrible, disturbing dreams of death and destruction. Sometimes he talks to a toy rabbit. This is the story of ten evenings in Frits's life at the end of December, as he drinks, smokes, sees friends, aimlessly wanders the gloomy city street and tries to make sense of the minutes, hours and days that stretch before him. Darkly funny and mesmerising, *The Evenings* takes the tiny, quotidian triumphs and heartbreaks of our everyday lives and turns them into a work of brilliant wit and profound beauty.

occupied Holland: “ fast-moving, frighteningly real yet verging on the incredible ” (Milan Kundera, author of *The Unbearable Lightness of Being*). During the German occupation of Holland, tobacconist Henri Osewoudt is visited by a mysterious man named Dorbeck—a man who bears a strangely striking resemblance to Osewoudt himself. Dorbeck recruits him to perform simple, but top-secret missions on orders from London. But as the assignments keep coming, they get increasingly dangerous. Soon Osewoudt is being asked to commit murder in the name of Gestapo resistance. After the war, Osewoudt is taken for a traitor and captured. To prove his sacrifices for the Resistance, he must find the untraceable doppelgänger in an existential thriller “ crackling with tension . . . bringing to mind Camus and the Sartre of *Les Chemins de la Liberté* ” (The Telegraph). “ Striking, suspenseful . . . Brilliant. ” —The Observer

Fair trade is a fast-growing alternative market intended to bring better prices and greater social justice to small farmers around the world. But what does a fair-trade label signify? This vivid study of coffee farmers in Mexico offers the first thorough investigation of the social, economic, and environmental benefits of fair trade. Based on extensive research in Zapotec indigenous communities in Oaxaca, *Brewing Justice* follows the members of the cooperative Michiza, whose organic coffee is sold on the international fair-trade market, and compares them to conventional farming families in the same region. The book carries readers into the lives of coffee-producer households and communities, offering a nuanced analysis of fair trade’s effects on everyday life and the limits of its impact. *Brewing Justice* paints a clear picture of the dynamics of the fair-trade market and its relationship to the global economy. Drawing on interviews with dozens of fair-trade leaders, the book also explores the movement’s fraught politics, especially the challenges posed by rapid growth and the

increased role of transnational corporations. It concludes with recommendations to strengthen and protect the integrity of fair trade. This updated edition includes a substantial new chapter that assesses recent developments in both coffee-growing communities and movement politics, offering a guide to navigating the shifting landscape of fair-trade consumption.

"The history and the business of coffee are the stories that this book will tell, through the lens of the law--that is, through legal cases involving the production, distribution, marketing, and sale of coffee in the Americas during a brief moment in coffee history--from the early days of the new Republic of the United States to the present"--Introduction, p. xiii.

Longlisted for the 2022 International Gothic Association's Allan Lloyd Smith Prize The bestselling genre of Frankenfiction sees classic literature turned into commercial narratives invaded by zombies, vampires, werewolves, and other fantastical monsters. Too engaged with tradition for some and not traditional enough for others, these 'monster mashups' are often criticized as a sign of the artistic and moral degeneration of contemporary culture. These hybrid creations are the 'monsters' of our age, lurking at the limits of responsible consumption and acceptable appropriation. This book explores the boundaries and connections between contemporary remix and related modes, including adaptation, parody, the Gothic, Romanticism, and postmodernism. Taking a multimedia approach, case studies range from novels like *Pride and Prejudice* and *Zombies* and *The Extraordinary Adventures of the Athena Club* series, to television programmes such as *Penny Dreadful*, to popular visual artworks like Kevin J. Weir's *Flux Machine* GIFs. Megen de Bruin-Molé uses these monstrous and liminal works to show how the thrill of transgression has been contained within safe and familiar formats, resulting in the mashups that dominate Western popular culture.

Classics Original The budding young Hungarian artist B é la Zombory-Moldov á n was on holiday when the First World War broke out in July 1914. Called up by the army, he soon found himself hundreds of miles away, advancing on Russian lines and facing relentless rifle and artillery fire. Badly wounded, he returned to normal life, which now struck him as unspeakably strange. He had witnessed, he realized, the end of a way of life, of a whole world. Published here for the first time in any language, this extraordinary reminiscence is a powerful addition to the literature of the war that defined the shape of the twentieth century.

Excerpt: ... CHAPTER XIV. continuation Of Stern's Composition. "You know," began Havelaar, " that the Dutch possessions on the west coast of Sumatra are bounded on the North by independent districts, of which Atchin is the most important. It is said that a secret article in the treaty of 1824 restrains us from extending our frontier in that direction beyond the river SingkeL General van Damme, who with a faux air NapoUon wanted to extend his government as far as possible, here, therefore, stopped short at the insurmountable obstacle. I must believe in the existence of that secret article, because otherwise it would surprise me that the Rajahs<sup>1</sup> of Troomon and Analaboo, whose provinces are not without importance on account of their active trade in pepper, have not long ere now been brought under the Dutch power. You know how easy it is to find a pretext for war with such petty sovereigns, and for the annexation of their territory. To steal a province will always be easier than to steal a mill.<sup>1</sup> I believe that General van Damme would even have taken a mill, if he had pleased, and do not understand, therefore, how he could have abstained from those provinces in the North if there had not existed more

substantial reasons for so doing than right and justice. However this may be, he extended his conquests, not north but east. The provinces Mandheling and Ankola--the latter was the name of the Assistant-Besidency formed out of the hardly tranquillized Battah countries--were not yet quite freed from Atchinese influence (for when once fanaticism has taken firm root in a country, extirpation of it is difficult), although the Atchinese were no longer there; but this was not enough for the Governor. He extended his power to the east coast; and Dutch...
