Driving Search Traffic to Your Company's Web Site

This revamped edition introduces a holistic approach that integrates organic and paid searching. You'll learn how to: focus relentlessly on business value, not tactics; overcome the obstacles that make search marketing so challenging; get into your searcher's mind, and discover how her behavior may change based on situation or device; understand what happens technically when a user searches; create a focused program that can earn the support it will need to succeed; clarify your goals and link them to specific measurements; craft search terms and copy that attracts your best prospects and customers; optimize content by getting writers and tech people working together; address the critical challenges of quality in both paid and organic search; avoid overly clever tricks that can destroy your effectiveness; identify and resolve problems as soon as they emerge; and redesign day-to-day operating procedures to optimize search performance.
