Maytag Oven Manual Error Codes

[Maytag Electric Range F7 Error Code | Hunker](#)

If your Maytag range displays the "F7" error code, it means that the programmed fault error 7 occurred with the range.

Luckily the error is easily fixed in most cases and requires no new parts.

[Maytag Dishwasher Error Codes | Troubleshooting and Manuals](#)
Maytag ERC Fault Codes Many

failure codes are caused by a faulty timer (also known as the Electronic Range Control). Sometimes, even when the failure code implies that another component has failed this can actually be a timer problem (whereby the timer is not displaying the correct fault code).

How to Remove the F9 Code From Maytag | Hunker

Be aware that the cause of many of the error codes the Maytag Oven will display is because the timer itself is at fault. The proper name of the timer on your Maytag Oven is called an Electronic Range Control – ERC. We will explain more about the ERC below.

Maytag ovens come with a set of fault codes to diagnose errors with the appliance. The codes all feature the "F#" format and range from "0" to "9." The "F9" error appears when there is a

malfunction with the oven door latch. The error is often a simple glitch that requires little maintenance to repair and get your oven operating normally again.
