The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

'This book is a major contribution to culture and to the psychoanalytic literature. The authors explore how animals, both wild and domesticated, have powerful symbolic meanings in our psyches, mythology, religion, literature, art, music, and popular culture. From the prehistoric art of Lascaux to Picasso, from The Fly to the American eagle, the psychoanalytic perceptions are subtle and suggestive, the aesthetic, film, and national insights are a delight.'-Peter Loewenberg, Dean, Southern California Psychoanalytic Institute, Professor of History and Political Psychology, UCLA'Our cousins - the animals - swarm, creep, fly, swim, and crawl all about us, even sharing our houses and infesting our bodies. We hunt them, breed, them, clothe ourselves with them, and eat them for dinner (as they sometimes do to us). They populate our literature, myths, religions, arts, our language and its metaphors, and they haunt our unconscious fantasies and our dreams.

Demonstrating how Turkey's politics have developed, this book focuses on the causes and consequences of the failed coup d'état of 15 July 2016. The momentous event and its aftermath challenges us to ask if the coup was the cause of Turkey's present crisis, or simply an accelerant of trends already in motion, and thus a catalyst for the realization of Erdoğan's latent authoritarian impulses. Bringing together approaches from politics, sociology, history and anthropology, the chapters shed much-needed light on these crucial questions. They offer scholars and nonspecialists alike a comprehensive overview of the implications of the coup attempt and its aftermath on the issues of religion, democracy, the Kurds, the state, resistance and more besides. Its effects have been felt in almost every aspect of Turkish society from religion to politics, yet it came at a time when Turkey was already experiencing significant social and political turmoil under the increasingly

authoritarian leadership of President Recep Tayyip Erdoğan. Readers interested in contemporary politics, Turkish and Middle Eastern studies will find the volume useful, as they ponder other cases in this era of democratic retrenchment and global turmoil.

A los doce años, Nicholas Goering sobrevivió milagrosamente a un disparo en la cabeza perpetrado por su propio padre, después de que este matara a su madre y se suicidara sin motivo aparente. Veinticinco años más tarde, ahora convertido en un referente de la Patología Forense en el prestigioso hospital de la ciudad sajona de Heimstadt, el misántropo doctor tendrá que lidiar con el caso más extraño de su carrera: el cuerpo de su padre ha aparecido en perfecto estado de conservación colgado como en el día de su muerte y le han colocado los órganos internos de distintas personas. El recientemente ascendido y temperamental detective Matías Vandergelb, quien desprecia al patólogo, y la ambiciosa psiquiatra Angélica Grunnewald, quien, por el contrario, está obsesionada con él, serán los encargados de intentar resolver el rompecabezas humano en una carrera contrarreloj. *Memento Mori* es la primera entrega de la trilogía.

"I found solace in nothing. Because everything was temporary. And days flew by like heavy cigarette smoke floating above the dancing heads in the city's most notorious club, like speech bubbles written in a language you cannot understand, like a dragon's breath you keep chasing, like pills that move from your hand to your red lips." Gratiagusti Chananya Rompas' personal essays are troves of memories she can always turn back to. They started off as day-to-day accounts of events from her younger years and the now. But Anya, as she is often called, is obsessed with how things people do – often in haste – quickly fossilize into memories, and how these memories, in turn, shape their lives.

The authors offer a unique exploration of the formative effects of children's early life experiences, with an emphasis on interactions among neurodevelopmental, behavioural and cultural dynamics. Multidisciplinary case studies focus on specific periods of development, or windows of susceptibility, during which care giving and other cultural practices potentially have a long-lasting impact on brain and behaviour. Chapters describe in detail: how social experience interacts with neurodevelopmental disorders; how epigenetic mechanisms mediate the effects of early environment; the interaction of temperament and environmental influences; the implications of early life stress or trauma for

mental health and well-being; and the cultural shaping of sexual development and gender identity. The final section translates insights from this work into a fresh appraisal of child-rearing practices, clinical interventions and global public health policy that affect the mental health and well-being of children around the world.
