Owning a Laundromat is a great business and can be very profitable. It is an all-cash business and recession-proof. A self-service laundromat runs all by itself. All you need to do is collect the cash and wipe down the machines. This

book will tell you how to run a laundromat with no prior experience. The skills needed to run and maintain a laundromat are not rocket science and don't need expensive equipment: just common sense and logic. I will tell you how it is, the good, the bad and the ugly—everything you need to know to get started.

Incredible Clothes

Scores of talented and

dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best

practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are

clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best

practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.
