POWER7 and POWER7+ Optimization and Tuning Guide I.B. Tauris Aline Leon In the last years, public attention was increasingly shifted by the media and world governments to the concepts of saving energy, reducing pollution, protecting the environment, and developing long-term energy supply solutions. In parallel, research funding relating to alternative fuels and energy carriers is increasing on both national and international levels. Why has future energy supply become such a matter of concern? The reasons are the problems created by the world's current energy system which is mainly based on fossil fuels. In fact, the energy stored in hydrocarbon-based solid, liquid, and gaseous fuels was, is, and will be widely consumed for internal combustion engine-based transportation, for electricity and heat generation in residential and industrial sectors, and for the production of fertilizers in agriculture, as it is convenient, abundant, and cheap. However, such a widespread use of fossil fuels by a constantly growing world population (from 2.3 billion in 1939 to 6.5 billion in 2006) gives rise to the two problems of oil supply and environmental degradation. The problem related to oil supply is caused by the fact that fossil fuels are not renewable primary energy sources: This means that since the first barrel of petroleum has been pumped out from the ground, we have been exhausting a heritage given by nature.

Divine Guidance is the doctrine of determining God's will for your life. God guides you by communicating His will through divine revelation. No believer can know or do the will of God apart from knowing the Word of God. The Bible reveals numerous mandates that universally declare what the will of God is and is not for every believer. The other intentions God has for your individual life that are not directly stated in Scripture must be determined from Bible doctrine in your soul. From the application of Bible doctrine you will resolve what God wants you to think, what He wants you to do, and where He wants you to go. As the personal emissaries of the Lord Jesus Christ, you represent Him effectively after salvation only by obeying God's will for your life. Learning the mandates, categories, and mechanics of divine guidance gives you the basics for doing His will. As you continue to grow to spiritual maturity, you will become confident that you know God's will for your life at any time and under every circumstance.
