An award-winning  
scientist offers his

unorthodox approach  
to childrearing:  
"Parentology is  
brilliant, jaw-  
droppingly funny, and  
full of wisdom...bound  
to change your  
thinking about  
parenting and its  
conventions" (Amy  
Chua, author of  
Battle Hymn of the  
Tiger Mother). If  
you're like many  
parents, you might  
ask family and

---

friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching

them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you

need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

The Book of the Mazda MX-5 Miata Haynes Publications

Make Conflict Your Partner for Positive Change! Clinical psychologist and transformative communication expert Dr. Nate Regier believes that the biggest energy crisis facing our world is the misuse of conflict. Most organizations are terrified of conflict, seeing it as a sign of trouble. But conflict isn't the problem, says Regier. It's all about how we use the energy. When people misuse conflict energy, it becomes drama: they struggle against themselves or each other to feel justified about their negative behavior. The cost to companies, teams, and relationships is staggering. The alternative, says Regier, is compassionate accountability: struggling with others through conflict. Discover the Compassion Cycle, an elegant model for balancing empathy, care, and transparency with boundaries, goals, and standards. Provocative, illuminating, and highly

practical, this book helps us avoid the casualties of conflict through openness, resourcefulness, and persistence.

The Book of the Mazda  
MX-5 Miata is the definitive  
story of the second  
generation of Mazda's  
MX-5 - the car that re-  
invented the affordable  
lightweight roadster, a  
species that was thought to  
be extinct as the 1990s drew  
near. Successful  
immediately, the MX-5 (also  
known as the Miata, or  
Roadster) spawned many

imitators, but remains the world's biggest selling sports car. The series has now been in production for almost 30 years, with new generations following the concept of the original, much to the delight of fans all over the world.

#### Federal Rules of Evidence Manual Motorbooks

Car values fluctuate wildly, never more so than in our current economic environment. Pricing information is a must for collectors, restorers, buyers, sellers, insurance agents and a myriad of others who rely on reliable authoritative data. With well over 300,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1901 and 2012, this is the most thorough price guide on the market. This invaluable reference is for the serious car collector as well as anyone who wants to know the value of a collector car they are looking to buy or sell. Prices in this must-have reference reflect the latest values, in up to six

grades of condition, from the esteemed Old Cars Price Guide database. New information for the most recent model year will also be added to our new Old Car Report database.
