My CX-5 diesel has developed the well-documented engine oil problem. It 's traveled 7000 km since the 50,000 km service and the engine oil light is warning of high oil level due to presence of diesel in the engine oil. The dealer says it is normal for the diesel and car needs a service and oil change. Mazda Australia refuses to talk to me about the problem.

I have considerable experience of operating the Mazda diesel engines (Fire engine and 22 seater

school coach) to high mileages, I found them to be very reliable, re ringing needed at high mileages, also it pays to replace the bearings after about 250,000kms. It pays to run them fairly high geared rather than revving them .
