The Mazda B series is a series of pickup trucks that was manufactured by Mazda. Produced across five generations from 1961 to

2006, the model line began life primarily as a commercial vehicle, slotted above a kei truck in size. Through its production, Mazda used engine displacement to determine model designations; a B1500 was fitted with a 1.5 L engine and a B2600, a 2.6 L engine.

With a fuel consumption of 7.4 litres/100km - 38 mpg UK - 32 mpg US (Average), 0 to 100 km/h (62mph) in 15.3 seconds, a maximum top speed of 101 mph (162 km/h), a curb weight of 2326 lbs (1055 kgs), the 323 VI 1.3 has a naturally-aspirated Inline 4 cylinder engine, Petrol motor, with the engine code B3. This engine produces a maximum power of 75 PS (74 bhp - 55 kW) at 5500 rpm and a maximum torque of 108 Nm (79 lb.ft) at 4000 rpm.
