I purchased a used 2002  
Mazda Protege 5 about  
3 months ago. The 5th  
gear started popping  
out of gear about a  
month later, then acts  
like it is in neutral  
when you put it in 5th  
gear. I was told I  
need a new  
transmission for about  
\$2500. This should not  
be happening on this  
new of a car.
