The celebrated author of *The Group* offers a “clever, witty, polished” portrait of the 1940s NYC literary bohemia she knew so well in this debut novel (*The New York Times*). Margaret Sargent is young and fearless, a deep thinker inspired by the bohemian energy that abounds in New York City in the years leading up to

the Second World War. With careless abandon, she destroys her marriage and numerous love affairs as she moves through the social circles of artists and writers, playing at the fringes of political extremism. She is an enigma, often wanton and frivolous, but possessing intelligence and a razor-sharp wit, as well as a troubling core of inner darkness, self-doubt, and puzzling tendencies toward self-destruction. For Margaret, urban life in the 1930s is an ongoing adventure—ever-changing, always surprising, and deeply, profoundly unsatisfying. Mary McCarthy, author of the bestselling American classic *The Group*, burst boldly onto the literary scene with her provocative debut, *The Company She Keeps*. A brilliant, stylistically inventive novel, it offers a rich portrait of a truly fascinating protagonist in six revealing episodes. Love her, despise her, or fear for her, you will never forget

Margaret Sargent. This ebook features an illustrated biography of Mary McCarthy including rare images from the author's estate.

The economies of South Korea and Taiwan in the second half of the twentieth century are to scholars of economic development what the economy of Britain in the late eighteenth and early nineteenth centuries is to economic historians. This book, first published in 2006, is a collaboration between a leading trade economist and a leading economic sociologist specializing in East Asia, and offers an explanation of the development paths of post-World War II Korea and Taiwan. The ambitions of the authors go beyond this, however. They use these cases to reshape the way economists, sociologists, and political scientists will think about economic organization in the future. They offer nothing less than a theory of, and extended evidence for, how capitalist economies become organized. One of the principal empirical findings is that a primary cause for the industrialization of East Asia is the retail revolution in the United States and the demand-responsiveness of Asian manufacturers.

This “immensely stimulating story of true crime down the ages” tells the history of human violence, from Peking Man to the Mafia (The Times, London). This landmark work offers a completely new approach to the history and psychology of human violence. Its sweep is broad, its research meticulous and detailed. Colin Wilson explores the bloodthirsty sadism of the ancient Assyrians and the mass slaughter by the armies led by Genghis Khan, Tamerlane, Ivan the Terrible, and Vlad the Impaler. He delves into modern history, exploring the genocides practiced by Stalin and Hitler. He then takes a chilling look into the sex crimes and mass murders that have become symbols of the neuroses and intensity of modern life. With breathtaking audacity and stunning insight, Wilson puts criminality firmly in a wide, illuminating historical context. “A work of massive energy, compulsively readable, splendidly informative . . . it establishes Wilson in a European tradition of thought that includes H. G. Wells, Sartre and Shaw.” —Time Out London “A tremendous resource for crime buffs as well as a challenging exposition for some of the more subtle criminological thinking of our time.” —Kirkus Reviews
