I'm using 2 MC2 E90 amps, and when pushing the amps to 75% of its capability or more it verry fast starts running verry hot and looses output power. and i'm only experiencing this kind of trouble with the MC2 E90 amps. the other amps i have in use won't get this hot and/or looses it's power when pushing the amp's to the max.

MC - Joe Meek

To my ears they are the best amps I have come across which is why I am using three of them in my monitors. Also MC2 Audio owns Quested hence Quested amps are rebadged MC2s. Tannoy and DynaudioAcoustics also chose MC2 amps when they still had the choice. Now they are both owned by TC

Group and have to use LabGruppen amps instead.

Introduction The MC2 series calibrators are compact hand-held calibrators with an easy to use graphical user interface. The calibration capabilities vary depending on the model at hand: •
MC2-PE is meant for calibrating pressure instruments. •
MC2-TE is intended for calibrating temperature instruments.
