Werner Herzog's Nosferatu – Phantom der Nacht (1979) is one of the masterpieces of the New German Cinema of the 1960s and 70s. Adapted from Bram Stoker's Dracula, and mindful too of F. W. Murnau's earlier German film version of that same novel, Herzog's film is perhaps the most compelling screen treatment of the vampire myth. In this comprehensive account of Nosferatu, S. S. Praver begins with discussion of Stoker's book, the cultural fascination with vampires, and the formation and evolution of Herzog's career. Taking the production history into account, Praver ultimately foregrounds the cultural and aesthetic components of the film that combine to such powerful effect. This second edition features a new foreword by Brad Prager and original cover artwork by Matt Brand.

This ground-breaking book is the first to describe in detail how teachers, supported by university educators and education advisers, might plan and implement innovative ideas based on sound theoretical foundations. Focusing on the teaching and learning of intercultural communicative competence in foreign language classrooms in the USA, the authors describe a collaborative project in which graduate students and teachers planned, implemented and reported on units which integrated intercultural competence in a systematic way in classrooms ranging from elementary to university level. The authors are clear and honest about what worked and what didn't, both in their classrooms and during the process of collaboration. This book will be required reading for both scholars and teachers interested in applying academic theory in the classroom, and in the teaching of intercultural competence.

Your students are changing. Technology is changing. The idea of the classroom is changing. Now, the way your students learn German is changing as well. In preparation for this edition of Kontakte, we conducted extensive research, employing a wide array of research tools including surveys, focus groups, and ethnographic studies to identify the key goals and challenges of the introductory German course. Not surprisingly, communication and cultural competence are among the top goals of the majority of instructors, who are facing the challenges of fewer contact hours, budget cuts, and new course formats that make these goals difficult to achieve. The Seventh Edition of Kontakte continues to offer a truly communicative approach that supports functional proficiency while responding to these changing needs in new and exciting ways. As a direct result of our research, we created Connect German (www.connectgerman.com), a powerful online learning platform that includes the ebook, the

online Arbeitsbuch, an audio/video chat feature, and a brand-new video filmed in Leipzig, thereby offering a flexible solution for the evolving introductory German landscape. Enhanced by these powerful new digital tools, the Seventh Edition of Kontakte does the following: Engages students in authentic culture and inspires them to communicate with confidence by providing them with the natural contexts they need to develop their language skills Provides tools for flexibility and easy course administration Achieves consistent results across the different course formats offered: face-to-face, hybrid, and online. \*Connect German, including but not limited to the workbook/lab manual, the video program, and chat tools, is sold separately and does not come automatically with the purchase of the textbook.

More and more we are challenged by today's learning environment – students are different, digital tools are evolving, and instructors are continually asked to do more with less yet show greater results. With the creation of Many Europes, Choice & Chance in Western Civilization, an entirely integrated program, we recognize this changing environment and set out with the goal of better meeting the western civilization course challenges of improving student performance, critical analysis skills, and overall comprehension in a continually evolving teaching and learning environment. What does it mean – integrated program? Rather than a traditional narrative text that then has ancillary support material or supplements tacked onto it, Many Europes was constructed as a program. Each narrative section has clearly stated learning objectives that are tied to the digital tools which drive the program's assessment. A key tool in driving knowledge is McGraw-Hill's LearnSmart, an adaptive assessment tool, which has proven results of increasing student comprehension and overall course results. Yet, we realize that while history instructors want students to know basic historical facts, the actual goal of the course is improving student's critical thinking abilities. Our Critical Missions develop analysis skills through the examination of maps, primary sources and the completion of a written argument. In addition, several other assignment types within McGraw-Hill's Connect drive the development of analysis skills and are also tied directly to learning objectives. What do we mean by Choice? Unique to this program, Many Europes discusses European history as a series of choices within a set of historical circumstances, driving greater critical analysis as students realize that Europe's fate was never inevitable but instead was created by individuals with diverse voices and perspectives. Choice also means flexibility. Many Europes – flexible content including a customizable documents collection available as print or digital as well as many user options from a completely digital experience to a hybrid print and digital experience, or if you must, an all print experience. What do we mean by Chance? In history chance shows itself as a dropped letter, an unexpected storm, or surprise turn of events. Chance can also show itself as a new way, path, or direction that allows for the anticipation and expectation of something better. Many Europes – flexible content coupled with powerful digital learning tools and a customizable documents collection gives users an innovative choice for the teaching and learning of Western Civilization as well as a better chance for improved student results and course outcomes.
