Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. solution. Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 3e is geared towards professors who love Garrison ' s market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. This new kind of OB product, Organizational Behavior: Real Solutions to Real Challenges, came from our increasing recognition of the challenges faced by former students working in contemporary organizations today. Those graduates tell us that they are ultimately challenged most by the “ people problems ” in their work. So, we wanted our current students to understand that reality and to expose them to the best current evidence and thinking about how informed people attack those challenges. Our charge was to create a product that focused on real solutions to real challenges in the real world. We have drawn on many sources including the Management & Organizational Behavior Teaching Society (MOBTS) and the Teaching and Learning Conference (TLC) of the Academy of Management.
