this sacred practice. In traditional descriptions, Tantra is often defined as meaning "to weave", and can be compared to the weaving of a fabric. Tantra is therefore a path that weaves together. Ultimately, Tantra points us to the highest level of consciousness in which one merges into Oneness and no longer feels like a separate physical entity. This is sometimes called "Heaven" as opposed to the more tangible experience of "Earth". This book explains how Tantra can allow us to move from a physical solid experience of reality into the lighter more ethereal experience – or from Earth to Heaven – and then ultimately bring

Heaven to Earth! This book explores: • The history of Tantra • The core principles of Tantra • An understanding of the tantric approach to sexuality • Practices to explore your own Tantric sexuality • A tantric understanding of relationship, love and intimacy • An understanding of Tantra as a spiritual path • Practices for creating spiritual experiences and higher states of consciousness ...and much more!
