A single, comprehensive text covering all the MCQs required to prepare for both the Primary and Final FRCA exams.

**[10,000 MCQs] - Question Bank - Nursing, Staff Nurse, ANM/GNM and Community Health Officers CHO Exams** CRC Press

Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question.

The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

**Pre-Clinical Medicine** McGraw-Hill Education Australia

Single best answer (SBA) questions have been introduced into the FRCR Part 2A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

**Textbook of Surgery** John Wiley & Sons

Designed specifically for the revised Final FRCA examination, this book contains four mock exams, combining the new single best answer format with the traditional true/false format MCQs. A further fifth chapter contains only single best answer questions allowing candidates extra practice on this new and more difficult format. Uniquely the book includes answers with explanations and cross-references to key textbooks, allowing the candidate to read around on more difficult areas. The editor team balances extensive exam experience with recent exam success. Each question has also been expertly reviewed to ensure the highest quality and relevance to the Final FRCA. This is a must buy when preparing for this key exam.

**MCQs and Extended Matching Questions for the MRCS** Jaypee Brothers Medical Publishers

**Textbook of Surgery** is a core book for medical and surgical students providing a comprehensive overview of general and speciality surgery. Each topic is written by an expert in the field. The book focuses on the principles and techniques of surgical management of common diseases. Great emphasis is placed on problem-solving to guide students and junior doctors through their surgical training. Throughout the book are numerous reproducible line drawings, tables and boxes that will prove invaluable for learning and revision. In addition there are detailed guidelines provided for surgical management. Up-to-date and ideal for medical students and junior doctors on surgical attachments and a perfect refresher for RACS and MRCS candidates. Reviews of the last edition "The textbook presents a compact and contemporary overview and is not so much a reference book as a working tome suitable for familiarization with current

trends in treatment and diagnosis in these various areas. ...found this textbook very informative and a pleasure to read." ANZ Journal of Surgery Vol. 72, No. 12.

**EBOOK Chen's Clinical Anatomy MCQs** Oxford University Press

MCQs for Medical Students and Doctors is an unusual multiple-choice question book on three accounts: • It covers thirteen of the specialties in medicine that every medical student has to face and every first-contact physician has to deal with in encounters with their patients irrespective of the doctor's field of specialization; • Unlike many MCQ books, this book goes further by providing comments that accompany >99% of the answers as explanations or additional information. This makes this book an MCQ book with "short notes"; • It is different from most, if not all, MCQ books in medicine for the others are usually specialty-specific. This MCQ book successfully covers fundamental topics in three selected pre-clinical subjects viz.: anatomy, pharmacology and therapeutics, and parasitology as well as ten clinical specialties viz.: obstetrics and gynecology, dermatology, anesthesia, mental health, ophthalmology, otorhinolaryngology, general surgery, orthopedics/trauma, internal medicine, and general pediatrics. Detailed material is provided in "Book Reviews" and "How to Use" for the reader's guidance.

**QBase Paediatrics: Volume 1, MCQs for the MRCPCH** CRC Press

QBase Paediatrics 1 contains 300 questions divided into a number of pre-set exams (with accompanying fully referenced explanatory notes) in both book and electronic format. The free CD-ROM can be installed in seconds and gives the reader an incredible range of options, greatly increasing the utility and value of the book. Not only can the reader practice preset or customized exams, but the program will mark these exams, shuffle the stems (A-E) to prevent the candidate from memorizing 'patterns' and advise on examination strategy. It also has the facility to print out and store test results and provides helpful notes on each question.-- CD ROM massively increases the value and versatility of the questions-- The program is quick to install and is very simple to use -- no specialist computer knowledge needed-- Far more useful and better value than a simple multiple choice question book.

**MCQs for MRCOG** Oxford University Press

Ace your exams with Chen's Clinical Anatomy MCQs, the book that makes anatomy interesting and easy to learn. Quiz yourself and your friends with quick fire multiple choice questions, in-depth clinical scenario questions that put anatomy in context and open-ended short answer questions to inspire group discussion.

**Portal Hypertension** Springer

The definitive work on the diagnosis and treatment of portal hypertension. Previously published by the Society for Interventional Radiology (SIR), this fully revised and updated third edition of Portal Hypertension: Imaging, Diagnosis, and Endovascular Management is the first volume in collaboration between Thieme and the SIR. Edited by Wael Saad and written by internationally recognized experts, this authoritative volume is a comprehensive guide to the diagnosis and interventional management of portal hypertension. A potentially serious condition, portal hypertension presents considerable clinical challenges due to the delicate nature of the impacted organs, veins, and vessels. From pathophysiology to the latest state-of-the-art approaches, five major sections encompass diagnostic, medical, endoscopic, non-vascular, surgical, percutaneous, endovascular, and balloon-occluded methodologies, including indications, complications, and clinical trial results. Throughout this book's 33 chapters, a Who's Who of world-renowned interventional radiologists share clinical pearls and step-by-step procedural guidance. Several techniques have undergone significant advances since the second edition was published, including Transjugular Intrahepatic Portosystemic Shunt (TIPS), Balloon-Occluded Retrograde Transvenous Obliteration (BRTO), Balloon-Occluded Antegrade Transvenous Obliteration (BATO), and variations on TIPS, and all these are featured herein. Key Highlights Hepatic and portal venous anatomy relative to procedural approaches. Nearly 250 figures elucidate anatomical structures and technical methodologies. TIPS: patient selection, effects on kidney and liver function, hemodynamic changes, intravascular ultrasound guidance, Doppler surveillance, and utilization for Budd-Chiari Syndrome and liver transplantation. TIPS clinical study outcomes for variceal bleeding, ascites, and hydrothorax. BRTO and BATO techniques, clinical study outcomes, and utilization for gastric varices. Management of mesenteric and portal vein stenosis, thrombosis, and hypersplenism. This remarkable book is a must-have tool for interventional radiologists and for all those who care for patients with portal hypertension, from residents to practicing clinicians.

**Critical Care MCQs** Oxford University Press

Multiple-choice questions form part of FRCA examinations. Sample examinations are presented, offering questions with model answers. A comprehensive self-learning tool.

**Best of Five MCQs for the MRCP Part 1 Volume 3** Cambridge University Press

Critical Care MCQs is the perfect companion for anyone sitting exams in intensive care, as a training resource or just wanting to improve their knowledge in this constantly developing area of medical practice. Written by critical care doctors with experience of UK and European examination formats, this book leads the reader through 450 true/false questions with referenced explanations, covering core syllabus topics and key influential papers to date. A detailed list of further resources and recommendations relevant to critical care revision is also provided to enable readers to further their knowledge and understanding. It is hoped that this book will prove invaluable for preparation and success in upcoming intensive care exams for both candidates and trainers. This book would be useful for not only candidates sitting the UK Final Fellowship of Intensive Care Medicine (FFICM) and European Diploma of Intensive Care (EDIC) exams, but also the Indian Diploma in Critical Care Medicine (IDCCM), the Diploma of the Irish Board of Intensive Care Medicine (DIBICM), the Australia and New Zealand Fellowship of the College of Intensive Care Medicine (CICM), American Board and any other country-related intensive care exams.

**Radiodignosis For Medical Students-MCQs More Than 800 Multiple Choice Objective Questions With Answers** Cambridge University Press

Portal hypertension is a clinical syndrome defined by a portal venous pressure gradient, exceeding 5 mm Hg. In this book the causes

---

of its development and complications are described. Authors have presented personal experiences on conducting patients with various displays of portal hypertension. Moreover, the book presents modern data about molecular mechanisms of pathogenesis of portal hypertension in liver cirrhosis, the information about the original predictor of risk of bleeding from gastro-esophageal varices and new methods for their conservative treatment.

Textbook of Surgery Georg Thieme Verlag

This volume offers a comprehensive and trustworthy solution to anybody wishing to sit, pass, and excel at the Membership of the Royal College of Physicians Part 1 examination.

MCQs & EMQs in Human Physiology, 6th edition Jaypee Brothers Medical Publishers

With over 1000 essential questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery, 26th edition. The book assists trainee surgeons as they prepare for examinations and enables them to test their knowledge of the principles and practice of surgery as outlined in Bailey & Lo

MCQs and SBAs in Intensive Care Medicine Humana

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

MCQs and EMQs in Surgery Cambridge University Press

Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title ' Multiple Choice Questions in Intensive Care Medicine ' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

Portal Hypertension OUP Oxford

With more than 950 questions, and containing diagrams found in the actual exam, this book encompasses the syllabus of the Final FRCA as set by the Royal College of Anaesthetists, including five complete examinations, each comprising of 90 MCQs. Questions have been modelled on actual exam questions so that they accurately reflect the style and level
