Multiple choice questions make up an important part of the MRCP I examination. QBase Medicine is much more than just a book, giving 5 sets of examination papers, in groups of 60 questions (as in the MRCP exam itself). It also comes with a free CD-ROM. This powerful electronic package is installed easily and gives the reader a huge range of options to greatly enhance the value and utility of the book. Not only can the reader practice the set exams, but the CD-ROM will mark these exams, allow the reader to customize exams to focus in on areas requiring further revision, shuffle the question stems to effectively set inexhaustible number of different papers, and advise on examination strategy. It has the facility to print out and store the results and provide helpful notes on each question.

QBase Paediatrics: Volume 1, MCQs for the MRCPCH
Cambridge University Press

QBase Paediatrics 1 contains 300 questions divided into a number of pre-set exams (with accompanying fully referenced explanatory notes) in both book and electronic format. The free CD-ROM can be installed in seconds and gives the reader an incredible range of options, greatly increasing the utility and value of the book. Not only can the reader practice preset or customized exams, but the program will mark these exams, shuffle the stems (A-E) to prevent the candidate from memorizing 'patterns' and advise on examination strategy. It also has the facility to print out and store test results and provides helpful notes on each question.-- CD ROM massively increases the value and versatility of the questions-- The program is quick to install and is very simple to use -- no specialist computer knowledge needed-- Far more useful and better value than a simple multiple choice question book.

Designed specifically for the revised Final FRCA examination, this book contains four mock exams, combining the new single best answer format with the traditional true/false format MCQs. A further fifth chapter contains only single best answer questions allowing candidates extra practice on this new and more difficult format. Uniquely the book includes answers with explanations and cross-references to key textbooks, allowing the candidate to read around on more difficult areas. The editor team balances extensive exam experience with recent exam success. Each question has also been expertly reviewed to ensure the highest

quality and relevance to the Final FRCA. This is a must buy when preparing for this key exam.

QBase Medicine Paperback with CD-ROM: Volume 1, MCQs for the MRCP, Part 1 Oxford University Press
Filling a gap for a pre-clinical phase revision guide, this book will help medics pass their intermediate exams in order to proceed to the clinical years. It is based on the SAQs, EMQs and MCQ school curriculum as set out by the GMC. By covering each module individually but also integrating other disciplines of medicine into the questions, it helps students to think laterally as well as thoroughly revising each module. With a minimum of 4 SAQs, 7 MCQs and 3 EMQs in each chapter, this book offers comprehensive revision practice as well as providing all the answers with clear explanations.

Prepare with confidence for the FFICM and EDIC with this dedicated guide featuring 300 original multiple choice (MCQ) and single best answer questions (SBAs) covering the whole FICM curricula. Organized into ten practice papers so readers can practice the style and format of the real exam, questions cover a broad range of intensive care topics for postgraduate exams. Each answer includes a full explanation, up-to-date evidence-based guidelines and sources for further reading to ensure high-quality self-assessment. Written by a team of consultants, these original and high-quality questions have been developed over years of clinical experience. This invaluable resource provides intensive care medicine trainees with an ideal companion for the FFICM and EDIC and other postgraduate critical care exams.

Best of Five MCQs for the MRCP Part 1 Volume 2 OUP Oxford
A single, comprehensive text covering all the MCQs required to prepare for both the Primary and Final FRCA exams.

[Textbook of Surgery](#) OUP Oxford

A cutting-edge review of the latest findings on key scientific topics and the best strategies for evaluation and management of portal hypertension in the clinic. Writing in an easy-to-read style, the authors review its pathobiology, the progress being made in its experimental understanding, the methodologies to assess it in humans, the treatment of its complications (esophageal varices, ascites, and hepatorenal syndrome), and its treatment in special circumstances (during pregnancy, in children, or when the portal vein is blocked). They also provide in-depth coverage of the pros and cons of the various therapeutic choices available to the clinician managing patients with complicated portal hypertension.

This practical, comprehensive anatomy book arms FRCA candidates with detailed, robust anatomical knowledge via a question-based approach.

MCQs & EMQs in Human Physiology, 6th edition The Medicine Publishing Company

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-specific sections, both MCQs and EMQs provide a comprehensive coverage of the surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.

Gastroenterology Cambridge University Press

Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

Chen's Clinical Anatomy MCQs Springer Science & Business Media
Specifically designed to help candidates revise for the MRCS exam, this book features 350 Single Best Answer multiple choice questions, covering the whole syllabus. Containing everything candidates need to pass the MRCS Part A SBA section of the exam, it focuses intensively on the application of basic sciences (applied surgical anatomy, physiology, and pathology) to the management of surgical patients. The high level of detail included within the questions and their explanations allows effective self-assessment of knowledge and quick identification of key areas requiring further attention. Varying approaches to Single Best Answer multiple choice questions are used, giving effective exam practice and guidance through revision and exam technique. This includes clinical case questions, 'positively-worded' questions, requiring selection of the most appropriate of relatively correct answers; 'two-step' or 'double-jump' questions, requiring several cognitive steps to arrive at the correct answer; as well as 'factual recall' questions, prompting basic recall of facts.

MCQs for the Final FRCA Cambridge University Press

MCQs for Medical Students and Doctors is an unusual multiple-choice question book on three accounts: • It covers thirteen of the specialties in medicine that every medical student has to face and every first-contact physician has to deal with in encounters with their patients irrespective of the doctor's field of specialization; • Unlike many MCQ books, this book goes further by providing comments that accompany >99% of the answers as explanations or additional information. This makes this book an MCQ book with "short notes"; • It is different from most, if not all, MCQ books in medicine for the others are usually specialty-specific. This MCQ book successfully covers fundamental topics in three selected pre-clinical subjects viz.: anatomy, pharmacology and therapeutics, and parasitology as well as ten clinical specialties viz.: obstetrics and gynecology, dermatology, anesthesia, mental health, ophthalmology, otorhinolaryngology, general surgery, orthopedics/trauma, internal medicine, and general pediatrics. Detailed material is provided in "Book Reviews" and "How to Use" for the reader's guidance.

MCQs and EMQs in Surgery: A Bailey & Love Companion Guide Oxford University Press

With over 1000 essential questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery, 26th edition. The book assists trainee surgeons as they prepare for examinations and enables them to test their knowledge of the principles and practice of surgery as outlined in Bailey & Lo

MCQs for FRCS John Wiley & Sons

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and

multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.
