You may need some previous work-related skill, knowledge or experience to be a Motorcycle Mechanic. For example, an electrician must complete three or four years of apprenticeship or several years of vocational training, and often must have passed a licensing exam, in order to perform the job. Careers in this difficulty category will usually need 1 or 2 years of on-the-job training and

informal training with experienced workers. Online Motorcycle Mechanic Training and Certification ... Free Mechanic Practice Tests. Welcome to Mechanic Career Now practice tests. Our mechanic certification practice tests have questions and answers designed to test your knowledge of the ASE guidelines you learned at mechanic trade school. The A series of tests is for individuals who want to be trained and certified in performing vehicle repairs.
