An instant classic when first published in 1991, How to Lie with Maps revealed how the choices mapmakers make—consciously or unconsciously—mean that every map inevitably presents only one of many possible stories about the places it depicts. The principles Mark Monmonier outlined back then remain true today, despite significant technological changes in the making and use of maps. The introduction and spread of digital maps and mapping software, however, have added new wrinkles to the ever-evolving landscape of modern mapmaking. Fully updated for the digital age, this new edition of How to Lie with Maps examines the myriad ways that technology offers new opportunities for cartographic mischief, deception, and propaganda. While retaining the same brevity, range, and humor as its predecessors, this third edition includes significant updates throughout as well as new chapters on image maps, prohibitive cartography, and online maps. It also includes an expanded section of color images and an updated list of sources for further reading.

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on The Office, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.

NEW YORK TIMES BESTSELLER • Tarana Burke and Dr. Brené Brown bring together a dynamic group of Black writers, organizers, artists, academics, and cultural figures to discuss the topics the two have dedicated their lives to understanding and teaching: vulnerability and shame resilience. Contributions by Kiese Laymon, Imani Perry, Laverne Cox, Jason Reynolds, Austin Channing Brown, and more NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE AND BOOKRIOT It started as a text between two friends. Tarana Burke, founder of the 'me too.' Movement, texted researcher and writer Brené Brown to see if she was free to jump on a call. Brené assumed that Tarana wanted to talk about wallpaper. They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when the phone rang. But it was immediately clear to Brené that the conversation wasn't going to be about wallpaper. Tarana’s hello was serious and she hesitated for a bit before saying, “Brené, you know your work affected me so deeply, but as a Black woman, I've sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the application has been harder.” Brené replied, “I’m so glad we’re talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you’re not physically or emotionally safe?” Long pause. “That’s why I’m calling,” said Tarana. “What do you think about working together on a book about the Black experience with vulnerability and shame resilience?” There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of essays on Black shame and healing. Along with the anthology contributors, they create a space to recognize and process the trauma of white supremacy, a space to be vulnerable and affirm the fullness of Black love and Black life.
