Many cultures accept that a person  
may die and then come back to life in

another form, but Westerners have traditionally rejected the idea. Recently, however, surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation, and numerous claims of reincarnation have been reported. This book examines particular cases in Europe that are suggestive of reincarnation. The first section provides a brief history of the belief in reincarnation among Europeans. The

second section considers eight cases from the first third of the twentieth century that were not independently investigated, but were reported and sometimes published by the persons concerned. The third section covers 32 cases from the second half of the twentieth century that were investigated by the author. Many of these cases involved either children who exhibited unusual behavior attributed to a previous life, or adults who experienced

recurrent or vivid dreams attributed to a previous life. In the fourth section, the author compares European cases suggestive of reincarnation with those of other countries and cultures.

Dr. Michael Newton is world-famous for his spiritual regression techniques that take hypnotic subjects back to their time in the spirit world. His two best-selling books of client case studies, *Journey of Souls* and *Destiny of Souls*, have left thousands of readers eager to discover their own afterlife adventures, their soul companions and guides, and their purpose in this lifetime. Now, for the first time in print, Dr. Newton reveals his step-by-step methods. His experiential approach to the spiritual realms sheds light on the age-old questions of who we are, where we came from, and why we are here. This groundbreaking guidebook, designed for both hypnosis professionals and the general public, completes the afterlife trilogy by Dr. Newton.

This book examines the afterlife of Partition as imprinted on the memories and postmemories of Hindu and Sikh survivors from West Punjab to foreground the intersection between history, memory and narrative. It shows how survivors script their life stories to reinscribe tragic tales of violence and abjection into triumphalist sagas of fortitude, resilience, industry, enterprise and success. At the same time, it reveals the silences, stutters and stammers that interrupt survivors' narrations to bring attention to the untold stories repressed in their consensual narratives. By drawing upon current research in history, memory, narrative, violence, trauma, affect, home, nation, borders, refugees and citizenship, the book analyzes the traumatizing effects of both the tangible and intangible violence of Partition by tracing the survivors' journey from refugees to citizens as they struggle to make new homes and lives in an unhomely land. Moreover, arguing that the event of Partition radically transformed the notions of home, belonging, self and community, it shows that individuals affected by Partition produce a new ethics and aesthetic of displacement and embody new ways of being in the world. An important

---

contribution to the field of Partition studies, this book will be of interest to researchers on South Asian history, memory, partition and postcolonial studies.

### Dying to Really Live Memories of the Afterlife

For centuries, the existence of reincarnation has been a firmly held belief of millions that crosses races, religions, and cultures. In *Past Lives*, Dr. Peter Fenwick and Elizabeth Fenwick examine this extraordinary phenomenon by attempting to determine whether people are experiencing actual memories, or thoughts and ideas based on imagination. Featuring more than 100 firsthand accounts from those who believe they can recall their previous existences, this insightful exploration of reincarnation may change the way you think—and challenge your views of life itself. • A World War II veteran relives the moment of his death—in the cockpit of a bi-plane during the first World War. • A hypnotized woman starts speaking

with an Irish brogue about her life in Ireland although she 's never visited there. • While vacationing in Egypt, a woman correctly describes a temple she was once worshipped in—without ever having been inside. *European Cases of the Reincarnation Type* Simon and Schuster A fully updated 2-in-1 edition, with a new introduction by the author, combining Dr. Jim B. Tucker's bestselling books about children who remember past lives—*Return to Life and Life Before Life*. These two books contain first-person accounts of Jim B. Tucker's experiences with a number of extraordinary children with memories of past lives, and expands on the international work started by Tucker's University of Virginia colleague Ian Stevenson. Tucker's work has been lauded by the likes of parapsychologist Carol Bowman and Deepak Chopra, and has been described by some as quantum physics. His goal in each case of a child reporting memories of previous lives is to determine what happened—what the child has said, how the parents have reacted, whether the

child's statements match the life of a particular deceased person, and whether the child could have learned such information through normal means. Tucker has found case studies that provide persuasive evidence that some children do, in fact, possess memories of previous lives. Thought-provoking and captivating, the stories in *Before* urge readers, skeptics and supporters alike to think about life, death, and reincarnation and to reflect about their own consciousness and spirituality.

The Partitions of Memory Hampton Roads Publishing

In the follow-up to Elisa Medhus' s My Son and the Afterlife— " a heartfelt, deeply moving story " (Eben Alexander, New York Times bestselling author of Proof of Heaven)—her son Erik tells his astounding story directly from the afterlife, describing in detail his death, transition, and spiritual renewal. My Life After Death begins on the tragic day when Erik Medhus took his own life. What follows is a moment-by-moment account of the spiritual life he discovers on the other side—told for the very first time in his own words as channeled by medium Jamie Butler and then transcribed by his mother Elisa. Overflowing with his signature honesty and candor, Erik describes more than just a visit to the afterlife. He personally walks us through the experience of dying, transitioning into spirit form, and reveals a detailed look at the life awaiting us on the other side. In this intimate and provocative memoir, crucial questions will finally be answered, including: What does it feel like to die? What is it like to become a spirit? Why

and how do spirits communicate with the living? Is there a heaven? Ultimately, Erik ' s story provides the answers that will help readers find solace and remove the fears surrounding death, showing that love has no boundaries and life does not truly end.

Adventures of Soul-Case Studies of Life Between Lives Routledge

Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young son, Chase, described his own past-life death on a Civil War battlefield--an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In Children's Past Lives, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents

on how to respond to a past life memory, and shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, Children's Past Lives will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death

Life Before Life CreateSpace

Dr. Tucker, in a follow-up to his book *Life Before Life*, explores American cases of young children who report memories of previous lives in the New York Times bestseller, *Return to Life*. A first-person account of Jim Tucker's experiences with a number of extraordinary children with memories of past lives, *Return to Life* focuses mostly on American cases, presenting each family's story and describing his investigation. His goal is to determine what happened—what the

child has said, how the parents have reacted, whether the child's statements match the life of a particular deceased person, and whether the child could have learned such information through normal means. Tucker has found cases that provide persuasive evidence that some children do, in fact, possess memories of previous lives. Among others, readers will meet a boy who describes a previous life on a small island. When Tucker takes him to that island, he finds that some details eerily match the boy's statements and some do not. Another boy points to a photograph from the 1930s and says he used to be one of the men in it. Once the laborious efforts to identify that man are successful, many of the child's numerous memories are found to match the details of his life. Soon after his second birthday, a third boy begins expressing memories of being a World War II pilot who is eventually identified. Thought-

provoking and captivating, *Return to Life* urges its readers to think about life and death and reincarnation, and reflect about their own consciousness and spirituality.

Past Lives Macmillan

Have you lived before? Suddenly the idea of reincarnation has produced a wave of resonance in modern society and struck a chord.

This book documents the growing public acceptance of the possibility that all of us will live again after we finish our present 'go-around' on the planet Earth. The ancient concept of reincarnation and past lives has not only re-emerged into our modern consciousness, but seems to have become a more natural and accepted part of our world view. Some studies show that twenty-five percent of people in modern western countries now agree that reincarnation is not only possible, but a reality. The implications of this are enormous. Imagine a population that has been released from the fear of death. Suddenly, we have all the time in the world - eternity, in fact! Life now takes on a new dimension of meaning. We realize that this is not all there is and we also understand that we are more than our physical bodies and because we are more than our physical bodies, we can access that which is beyond the physical. Our potential is

virtually unlimited. Freedom from the fear of death is a kind of universal freedom that can flow across all aspects of life and living. Knowing that we are not mere physical lumps of biological matter, but indestructible souls constructed of pure consciousness is a magnificent vision for humanity. Knowing that we are 'souls' means that we can live out our lives from that basic understanding. It is the ultimate empowerment. No doubt many will remain sceptical about the possibility of reincarnation. But it seems this is a concept and a phenomenon that is not going away. Those amazing headlines in the media just keep coming. Every day more people - average, ordinary everyday people - are discovering that they have an undeniable connection to something larger, something infinite and something absolutely amazing.
