Pada masa sama, buku ini turut merungkai bagaimana 'kontrak sosial' yang tidak wujud secara istilah pada teks Perlembagaan Persekutuan 1957 diguna pakai untuk menterjemah takrif persefahaman dan kesepakatan bagi keadilan sosial tiga kaum terbesar di Tanah Melayu. mengucar-ngacirkan negara. <i>Diary of a Rich Kid</i> I. B. Tauris Self-help: To millions of Americans it seems like a godsend. To many others it seems like a joke. But as investigative reporter Steve Salerno reveals in this groundbreaking book, it's neither—in fact it's much worse than a joke. Going deep inside the Self- Help and	Actualization Movement (fittingly, the words form the acronym SHAM), Salerno offers the first serious exposé of this multibillion- dollar industry and the real damage it is doing—not just to its paying customers, but to all of American society. Based on the author's extensive reporting—and the inside look at the industry he got while working at a leading "lifestyle"	publisher—SHAM shows how thinly credentialed "experts" now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy. Americans spend upward of \$8 billion every year on self- help programs and products. And those staggering financial costs are actually the least of our worries. SHAM
--	--	---

demonstrates how the self-help movement's core philosophies have infected virtually every aspect of American life—the home, the workplace, the schools, and more. And Salerno exposes the downside of being uplifted, showing how the "empowering" message that dominates self-help today proves just as damaging as the blame-shifting rhetoric of self-help's	"Recovery" movement. SHAM also reveals: • How self-help gurus conduct extensive market research to reach the same customers over and over—without ever helping them • The inside story on the most notorious gurus—from Dr. Phil to Dr. Laura, from Tony Robbins to John Gray • How your company might be wasting money on motivational speakers, "executive	coaches," and other quick fixes that often hurt quality, productivity, and morale • How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything—from drug abuse to "sex addiction" to shoplifting—a dysfunction or disease • How Americans blindly accept that twelve-step programs offer
---	--	---

the only hope of treating addiction, when in fact these programs can do more harm than good • How the self-help movement inspired the disastrous emphasis on self-esteem in our schools • How self-help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno

shows, to describe self-help as a waste of time and money vastly understates its collateral damage. And with SHAM, the self-help industry has finally been called to account for the damage it has done. Abuse of Power

This short story collection contains 13 short stories by Ahmad Tohari which were written between 1976 and 1986. Like his previous works, in this collection Tohari stays true to his path and presents the village life as well as the daily struggles of the poor and innocent people. As what has been described in the "Foreword", Tohari's strength lies in the village setting which

is rich with intricate details about the local plants and animals. Apart from that, Tohari's style is clear, direct, and simple although his stories also apply strong metaphors and irony.
