Mental Arithmetic 6 R.I.C. Publications

These simple math secrets and tricks will forever change how you look at the world of numbers. Secrets of Mental Math will have you thinking like a math genius in no time. Get ready to amaze your friends—and yourself—with incredible calculations you never thought you could master, as renowned “mathemagician” Arthur Benjamin shares his techniques for lightning-quick calculations and amazing number tricks. This book will teach you to do math in your head faster than you ever thought possible, dramatically improve your memory for numbers, and—maybe for the first time—make mathematics fun. Yes, even you can learn to do seemingly complex equations in your head; all you need to learn are a few tricks. You’ll be able to quickly multiply and divide triple digits, compute with fractions, and determine squares, cubes, and roots without blinking an eye. No matter what your age or current math ability, Secrets of Mental Math will allow you to perform fantastic feats of the mind effortlessly. This is the math they never taught you in school.

Mental Arithmetic: Teacher's notes and answers Schofield & Sims Limited

Mental Maths is the Maths we do in our heads without the use of calculators

and without writing down the calculation. Mental Maths strategies are the

'tricks', we use to do Maths in our heads. There are different ways of finding

the answer to any Mental Maths problem, and such strategies are the focus of

this series. Even though calculators and computers play an enormous role in

the modern world, we still need to go back to the basics % we do need to

know how to check that the sales assistant at the counter is giving us the right

change! Mental Maths has become more important than ever and new

primary Maths syllabuses in Australia are reflecting this. For example, NSW

has placed an emphasis on Mental Maths in its primary syllabus, and even the

Year 10 School Certificate examination has a compulsory non-calculator

section. Features of this book include: 32 double-page units of Mentals are

included % 8 units for each school term each unit is divided into four sets

(A,B,C and D) of 15 questions each each numbered question covers particular

Maths topics throughout the book: for example, Question 1 always covers

addition, while Question 15 always covers geometry a special 'Help' section,,

at the front of the book gives different strategies and explanations to help

students solve Mentals problems. These are also numbered so they link to the

question numbers in each Mentals unit a eFun Spot,, unit, containing fun

activities, and a eRevision,, unit are included at the end of each 8 units e extra

practice,, sections which reinforce particular strategies appear in the lower

part of each page answers to all questions are in a lift-out section in the centre

of the book

Mental Arithmetic Workbook Age 8-10 Galore Park

The First Mental Arithmetic Answers book provides the correct answers to all

the questions contained in the corresponding workbook. Answers to the

Check-up tests are included, together with the photocopiable Group record

sheets and an additional photocopiable Check-up.
