The two new titles in the Mental Maths series, for children aged between 5 and 7, complement the four existing titles for children aged between 7 and 11. Each book features extensive practice for addition and subtraction; the second book progresses to multiplication and division. These books fill the gaps in our current very popular Mental Maths series, providing first-class educational materials for parents to use with their children at home. These books provide a clear approach to number work for parents to follow with their children.

## New Wave Mental Maths Frank Schaffer Publications

Mental maths workbook is a series of three workbooks suitable for middle school and secondary students. The

workbooks support any mathematics program as the activities cover all strands: Working Mathematically, Number, Algebra, Chance and Data, Measurement, and Space. Mental maths workbook provides: comprehensive cover of all strands of mathematics; opportunities to practise and consolidate mathematics concepts; a structured daily program for a complete year; a recording space for each day; and accompanying teachers guide with answers and supporting information.

## New Wave Mental Maths: Book F Mental Maths Workbook: Daily revision of key mathematical concepts

Targeting Mental Maths series consists of eight workbooks for classes 1-8, based on the National Curriculum Framework 2005. The books provide highlights and hints to the role and relevance of numbers in our day-to-day life. Each topic is divided into concepts and each concept is on one page for giving lots of practice. The series aims at helping students to seek and discover interesting latent patterns and relationships and examples taken from daily life—thus laying a sound foundation for later years.

## Practice CGP KS1 Maths

1. It is a series of eight textbooks for Classes 1 to 8 that conforms to the vision of National Curriculum Framework and is written in accordance with the latest syllabus of the CBSE. 2. Learning Objectives: Lists well what a learner will know and be able to do after studying the chapter. 3. Let's Recall: Refreshes the concepts learnt in the form of a revision exercise to brush up the concepts taught in previous chapters or grades. 4. Let's Begin: Introduction to the chapter. 5. My Notes: Tips to help the learner remember the important points/formulae taught in the chapter. 6. Let's Try: Simple straight forward questions for quick practice while studying any topic based on the first two levels of Bloom's Taxonomy—Knowledge and Understanding. 7. Error Alarm: Common mistakes which learners commit often along with the correct way of doing the same. 8. Know More: Additional information for

the learners relating to the concepts learnt in the chapter 9. Maths in My Life includes questions relating Maths to daily life and which can help relate the topic with the environment (life) around us. 10. Tricky Maths: Challenge questions to help the learners build thinking skills and reasoning skills by solving tricky questions. 11. Project Work: Projects which can help learners connect Math with our daily life or that take the concepts learnt to a new level. 12. Concept Map: Summary points to list the important concepts learnt in the chapter in a crisp form. 13. Test Zone: Revision exercise of the concepts learnt in the chapter. This includes both objective and subjective type of questions. 14. Mental Maths: Maths problems for performing faster calculations mentally. 15. Maths Master: Involves deep critical thinking of learners about any topic, concept, relation, fact or anything related to that chapter. May have open ended questions or extension of the topic. 16. Application in Real-Life: Every chapter in each book also explains how and where it is used in daily life. 17. In the Lab: Math lab activities for helping the learners understand the concepts learnt through hands-on experience. 18. Practice Zone: Chapter-wise practice sheets includes subjective questions for additional practice which are a part of each book.
