Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

Born in 1900 to a soon-to-be-widowed postmaster's wife in a small French village, Hélène Delangle's background offered no suggestion of the extraordinary life she was to lead. The first step was to leave the country behind and head to the city -- in this case, a Paris in the grip of an intoxicating 1920s blend of creativity and debauchery. She became a dancer, and then a stripper. But the demi-monde of gauze veils and admirers was not enough. A visit to the Actors' Championships, a uniquely French meeting of the theatrical world with the race-track, opened her eyes to the glamorous combination of machines and speed. Quickly establishing herself as a racer of uncommon talent and audacity, the beautiful woman now known as Hellé Nice -- Hellish Nice to her British fans -- then caught the

attention of none other than Ettore Bugatti, founder of the marque with which her name will always be associated. And yet, despite the fame and the fortune she amassed in an unprecedented career, she died penniless and alone, an old woman in a crumbling Nice flat surrounded only by memories. THE BUGATTI QUEEN is the story of a great pioneer of motor racing who happened to be a woman. Re-creating her rollercoaster career with great verve and panache, Miranda Seymour brilliantly shows us a life now forgotten -- and makes it unforgettable.

Honeyball and Bowers' Textbook on Employment Law is an approach to employment law with strong critical analysis whilst placing it in its wider contexts, in a concise and user-friendly format. Fully updated to take into account the recent significant developments in this area, including the Equality Act 2010, the key topics on most employment law courses are addressed in detail. An extremely clear writing style allows this text to remain accessible and student-focussed, while providing detailed explanations and analysis of the law. The text also includes diagrams and chapter summaries throughout to aid student understanding, while further reading suggestions assist with essay preparation and research. Setting employment law in context, this book considers both industrial and collective issues as well as examining the increasing role of the EU in UK employment law. A separate chapter on human rights also enables students to understand the role human rights legislation plays in the development of employment law. This book also contains cross referencing to Painter & Holmes' Cases & Materials on Employment Law, ensuring that these two texts continue to complement one another and provide the perfect combination of textbook analysis and the most up-to-date cases and materials. This text is accompanied by a free Online Resource Centre (www.oxfordtextbooks.co.uk/orc/honeyball12e/) which contains updates to the law and useful weblinks.

Correlated data arise in numerous contexts across a wide spectrum of subject-matter disciplines. Modeling such data present special challenges and opportunities that have received increasing scrutiny by the statistical community in recent years. In October 1996 a group of 210 statisticians and other scientists assembled on the small island of Nantucket, U. S. A. , to present and discuss new developments relating to Modelling Longitudinal and Spatially Correlated Data: Methods, Applications, and Future Directions. Its purpose was to provide

a cross-disciplinary forum to explore the commonalities and meaningful differences in the source and treatment of such data. This volume is a compilation of some of the important invited and volunteered presentations made during that conference. The three days and evenings of oral and displayed presentations were arranged into six broad thematic areas. The session themes, the invited speakers and the topics they addressed were as follows: • Generalized Linear Models: Peter McCullagh-"Residual Likelihood in Linear and Generalized Linear Models" • Longitudinal Data Analysis: Nan Laird-"Using the General Linear Mixed Model to Analyze Unbalanced Repeated Measures and Longitudinal Data" • Spatio---Temporal Processes: David R. Brillinger-"Statistical Analysis of the Tracks of Moving Particles" • Spatial Data Analysis: Noel A. Cressie-"Statistical Models for Lattice Data" • Modelling Messy Data: Raymond J. Carroll-"Some Results on Generalized Linear Mixed Models with Measurement Error in Covariates" • Future Directions: Peter J.

With prices for the older Mercedes-Benz models, such as the 'Pagoda' and W107 SLs heading ever higher, many enthusiasts are now starting to look at the R129 series SL. Produced from 1989-2001, it combined timeless elegance, luxury and effortless performance, with V12 engines available for the first time. The R129 was the last SL with a detachable hardtop and - for many Mercedes fans - the last to be built to the marque's legendary standards of construction. With that sophistication came new levels of equipment and unprecedented complexity. For would-be buyers today, there are more points than ever to watch out for. The cars' weight also puts strain on components such as the brakes and suspension. Choosing a good R129 demands care. This buyer's guide will help you do just that. Learn about the differences between models, and what to look for when buying. What are the true running costs, and what issues - with the mechanicals, body or interior - should you be wary of? Find the answers to these questions and information about the clubs and specialists who can help look after your R129 today.

Codenamed W460, the iconic Mercedes-Benz G-Wagen, with its boxy, square edged no frills look, set out to be Stuttgart's answer to the Range Rover. However, by going back to Gottlieb Daimler's premise of "Nothing but the best," it quickly took its place throughout the world as "The Best 4X4." This Essential Buyer's Guide will navigate you through the various model changes, starting from the simple hand-built W460, through to the more luxurious market of the W463. You will find details of model changes, engine specifications, and issues that you may come across when looking to buying one of the best purpose-made vehicles around. Nik Greene has written many feature articles and regular copy for popular classic car and club magazines in the UK and France, and his passion for Mercedes cars has steered him towards researching and writing for one of the elite motor manufacturers. Having restored many cars, his present stable of cars includes the Mercedes W126 S-Class 560SE and his beloved Mercedes G-Wagen, as well as several classic Citroens and Renaults. [Agriculture International Haynes Publishing Group](#) Mercedes-Benz G-Class specialist Jörg Sand has written the ultimate book on this all-wheel-drive legend, from its design and development to its extraordinary and diverse career up to the present day. Very few automobiles remain as faithful in their character and appearance as the

hardcore, all-wheel-drive Mercedes-Benz G-Class luxury SUV. Even when it comes to the most recent series, the W 463 A, with its technically profound changes, the designers at Mercedes have barely changed the classic look. And for good reason. From its first year, 1979, the G-Class has always been one of the very few off-road legends. Tourists, firefighters, foresters, race drivers, and boat owners all appreciate the unique qualities of this indestructible force, the "G Wagon," from Graz, Austria.
