It's quiet, refined and
smooth. You could step out
of an old W123 E Class or
a W126 S Class into a new
A Class and feel the cars
were made in the same
factory by the same people
(even though they aren't). If
you had driven a company
Mercedes for the last 20
years of your working life, a
new A Class would be the
perfect retirement car.

These HID lights will give you care a much brighter front profile. Also, it is very easy to install. There are plenty of videos on YouTube that will show you how to install your new lights.
