An award-winning scientist offers his
unorthodox approach to childrearing:

“ Parentology is brilliant, jaw-
droppingly funny, and full of
wisdom...bound to change your
thinking about parenting and its
conventions ” (Amy Chua, author of
Battle Hymn of the Tiger Mother). If
you ’ re like many parents, you might
ask family and friends for advice when
faced with important choices about
how to raise your kids. You might turn
to parenting books or simply rely on

timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be

laughing and learning at the same time. *Volkswagen GTI, Golf, Jetta Service Manual 1985, 1986, 1987, 1988, 1989, 1990, 1991 1992* WIPO "You can energize your people and delight your customers by modeling the fabulous ideas that come from the World Famous Pike Place Fish Market." -- Ken Blanchard, co-author of *The One Minute Manager* In this revealing business advice book, the magic of the World Famous Pike Place Fish Market proves a dynamic example of what a group of people can create when they are aligned and living a powerful vision.
