Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

Modern Automotive Technology M-Y Books Limited

Machining is an essential part of high-performance engine building and stock rebuilding, as well as certain servicing procedures. Although you may not own the expensive tooling and machining to perform all or any of the machining required for a quality build, you need to understand the principles, procedures, and goals for machining, so you can guide the machining process when outsourced. Classic and older engines typically require extensive machining and almost every major component of engine, including block, heads, intake, crankshaft, and pistons, require some sort of machining and fitment. A detailed, authoritative, and thorough automotive engine-machining guide for the hard-core enthusiast has not been available until now. Mike Mavrigian, editor of Engine Building Professional, walks you through each important machining procedure. A stock 300-hp engine build has far different requirements than a 1,000-hp drag race engine, and Mavrigian reveals the different machining procedures and plans according to application and engine design. The author also shows you how to inspect, measure, and evaluate components so you can provide astute guidance and make the best machine work choices. Machining procedures included are cylinder boring, align boring/honing, decking, valveseat cutting, cam tunnel boring, and a multitude of other services. In addition, multi-angle valve jobs, setting the valveseats, altering rocker arm ratio, re-conditioning connecting rods, and machining and matching valvetrain components are also covered. Whether you're an enthusiast engine builder or prospective machining student who wants to pursue a career as an automotive machinist, this book will provide insight and in-depth instruction for performing the most common and important machining procedures.

When the mysterious Tatee walks into the renowned Manhattan Tango Studio all hell breaks loose, not a single person stays unaltered: old friendships are challenged and put to the test; seemingly confident women are alarmingly threatened by the novel newcomer 's presence; cool sleek men lose their steps, stuttering incomprehensible disobedient words. Unprepared for surreal and outlandish relationships she takes the role of an intrigued observer witnessing the unfolding drama where the dance floor reveals a theatre of the absurdity of human nature. The other stories explore the profoundness of human psyche where joy, suffering, humour and even madness can all be found. Encounter stories about cult escapees, an incompetent lawyer, a liberated husband, a case of mistaken identity and the serendipitous nature of synchronicity.

This book gives an up-close look at Mercedes-Benz roadsters, convertibles, and two-and four-seat coupes from the mid-1950s to present. With roadsters, starting with the 300SL's from the mid-1950 and continuing through the current SLK's - up to the 2003 model year. Coupes and Cabrios, this book details the 220SEb/300SE cars of 1960 and continues on up to the current CLK's to the 2003 model year. This approach better serves those who are in the market for "personal cars" by not spreading the book too thin to cover the entire Mercedes-Benz lineup. Explore all the traditional elements of the Buyer's Guide series, such as the basic histories of each model or model type, Garage Watch photos with inset photo callouts, tables of common replacement parts, quotes from contemporary magazine reviews, owner testimonials, rating charts, and specification tables.
