COSWORTH - THE SEARCH

FOR POWER (6th Edition) My Mercedes Is Not for Sale

"My Mercedes Is Not for Sale" is a rollicking, witty and insightful tale of an innocent abroad which captures the high-spirited adventure of a young journalist and paints a vivid portrait of West Africa through a surprise-filled journey into its thriving car cult. "My Mercedes is Not for Sale" has all the wit and charm of John Mole's bestselling "Its All Greek to Me!" and Peter Allison's "Don't Run,

Whatever You Do" and the philosophical underpinnings of Robert Pirsig's "Zen and the Art of Motorcycle Maintenance". Dutch journalist Jeroen van Bergeijk came up with what seemed like a great scheme for making a quick profit: buy an old banger in Amsterdam and resell it in the Third World, where a market for clapped-out cars still thrives. His chariot of choice is a rusty 1988 Mercedes 190D with 140,000 miles on the clock; his route takes him from Holland through Morocco, into some of the least trodden parts of Africa. Van Bergeijk finds himself facing a driving challenge akin to a Dakar Road Rally but encounters obstacles never

dreamed of by race-car drivers: active minefields, occasional banditry-mostly by the border guards - and a teenaged, chain-smoking desert guide with a fondness for Tupac lyrics. Food and water are scarce, sandstorms are frequent, and all he has to patch up his many car breakdowns thousands of miles from civilization is a bar of soap, some duct tape, and a pair of women's tights. Then there's the coup he lived through. "My Mercedes Is Not for Sale" captures more than the adventure - it vividly portrays the impact of globalization on Africa through an adventurous and sometimes dangerous journey into its thriving car culture. The book studies Geely's successful acquisition of Volvo, within a long-term framework of asset-seeking foreign direct investment, and then further investigates its recent strategic initiatives with Daimler, London Taxi, PROTON and Lotus. The book reveals how the little-known carmaker is worth close

examination, via its product development, organizational dynamics, corporate culture, brand development, talent and cross-cultural management strategies, as well as the entrepreneurship of its visionary founder Shufu Li. From catching up in technology to a leader in product, service and business model innovations, Geely has driven out as a new Chinese automaker on the world stage.

Facing challenges in clean energy and Internet of Things, artificial intelligence, new user's experience towards smart and mobility solution, Geely will continue to play an increasingly important role in the globalization age of the twenty-first century. *Daily Graphic* The Crowood Press The most trustworthy source of information available today on savings and investments, taxes, money management,
