Haynes Manuals N. America,  
Incorporated

This comprehensive manual shows you how to go places and do things you never thought possible in a small outboard motorboat. A well-designed ruggedly built 17-footer, for instance, can fish offshore, circumnavigate Lake Superior, and crisscross the continent on inland waterways or on a trailer pulled by the family car. Small outboards are among the most versatile boats ever developed and are far more able than you might expect. Covered here are all the popular types--and some

exciting alternatives as well as methods that may change your entire boating outlook. Aided by contributions from other experts, veteran outboard skipper David R. Getchell, Sr., offers a wealth of useful facts and special savvy that reveal for the first time in a single book the true potential of these democratic boats 20 feet and under. Here are the means to understand what can be done, and the way to do it safely, including: how to judge a boat's potential and capabilities based on design and construction; how to rebuild an older boat; how to handle a little boat in

big seas, surf, or shallow water; how to navigate; how to read the weather; how to head upriver or offshore; how to trailer your boat; how to manage and equip it for camp cruising on a nearby lake or for subarctic exploration; and how to care for the boat and motor.

The Outboard Boater's Handbook: Advanced Seamanship and Practical Skills  
This is the story of one couples adventures living and traveling aboard their 47-foot cruiser, "Farfetched". It starts with their getting hooked on boating and traveling by water, many years earlier. It tells how they made their decision to really make this move and of their search for the right boat. In 1997 they sold their home

---

and all of their possessions to became full time live aboard boaters. During that eight-year odyssey, they traveled over 32,000 miles and visited every major city in the eastern U S. They got to cities teeming with activity and to isolated anchorages where no one else was within miles. They experienced the serenity, beauty and solitude of anchorages in crystal clear waters off deserted beaches in the Exhuma Islands. There were also the spectacular sunsets as they made overnight passages across the Gulf of Mexico and cruised the North Channel of Lake Huron in Canada. It also tells of the anxiety they experienced when running in high seas or looking for unseen shoals. There was also the sudden panic as

they went aground and struggled to get free again. They encountered seven hurricanes in those eight years and tell how they had to deal with them.
