### OPTIMIZE QUALITY - Dharma Communication

HP ALM formerly known as Quality Center is a Test Management tool to manage the entire Quality Assurance and testing process for an organization. Before being called HP Quality center it used to be Mercury Test Director. In my experience, I have

come across very few projects (Manual and Automation) that did not use Quality Center software.

Test Management with Quality Center Mercury Quality Center is a web-based test management tool having several capabilities, such as scheduling of tests, and the logging of results, progress tracking, incident management and test reporting. It gives a centralized control over your entire testing

Project.

Mercury Quality Center User Guide Mercury Quality Center User ' s Guide explains how to use Quality Center to organize and execute all phases of the testing process. It describes how to define requirements, plan tests, run tests, and track defects.
