HP ALM formerly known as
Quality Center is a Test
Management tool to
manage the entire Quality
Assurance and testing
process for an organization.

Before being called HP Quality center it used to be Mercury Test Director. In my experience, I have come across very few projects (Manual and Automation) that did not use Quality Center software.

OPTIMIZE QUALITY.

Mercury Quality

Center™ provides a

complete, Web-based,

integrated system for

performing quality

assurance across a wide

range of IT and application

environments. It includes

an integrated suite of role-

based applications and best

practices as well as an

open, scalable, and

extensible foundation — all

designed to optimize and

automate key quality

activities, including

requirements, test, and

defects management;

functional testing; and

business-process testing.
