About the author. A. Victor Coonin is James F. Ruffin Chair of Art at Rhodes College. He has received fellowships and grants from the Mellon, Kress, and Fullbright foundations and has served on committees for the Fullbright, National Endowment for the Humanities, and College Art Association. Author of numerous articles

and editor of 2 books, this is his first monograph. -- Publisher's website. Machiavelli Meta Management Press This autobiography tells the story of Israeli-French artist Hanna Eshel's love of marble and how she learned to work with the material as one of a family of sculptors at Atelier Nicoli. Magnifico Crown Currency Michelangelo was an Italian sculptor, painter, architect, poet, and engineer of the High Renaissance who exerted an unparalleled influence on the development of Western art. Despite making few forays beyond the arts, his versatility in the disciplines he took up was of such a high order that he is often considered a contender for the title of the archetypal Renaissance man, along with his fellow Italian Leonardo da Vinci. Michelangelo was considered the greatest living artist in his lifetime, and ever since then he has been held to be one of the greatest artists of all time.[1] A number of his works in painting, sculpture, and architecture rank among the most famous in existence. His output in every field during his long life was prodigious; when the sheer volume of

correspondence, sketches, and reminiscences that survive is also taken into account, he is the best-documented artist of the 16th century. In his lifetime he was also often called Il Divino ("the divine one"). One of the qualities most admired by his contemporaries was his *terribilità*, a sense of awe-inspiring grandeur, and it was the attempts of subsequent artists to imitate Michelangelo's impassioned and highly personal style that resulted in Mannerism, the next major movement in Western art after the High Renaissance. Tell Them of Battles, Kings, and Elephants Abrams Blessed with a natural beauty, Scotland-born actress Deborah Kerr (1921 – 2007) provided the cinema with memorable studies of English gentility. A star in British pictures before she was 21 and a Hollywood fixture from 1946 on, she projected a cool reserve and stoic nobility, often hinting at passion and insecurity beneath the surface. Frequently portraying selfless, sympathetic women, she was brilliant in such roles as Anna Leonowens in *The King and I* (1956). And in a fascinating departure

from her normal range, her portrayal of the sexually frustrated Army wife in *From Here to Eternity* (1953) resulted in the screen's most famous "clinch"—the beach scene with Burt Lancaster. Though she never won an Academy Award despite six nominations, Deborah Kerr received an honorary Oscar in 1994. The Life of Michelangelo Buonarroti Courier Corporation Miles Unger's biography of this complex figure draws on primary research in Italian sources and on his intimate knowledge of Florence, where he lived for several years."--BOOK JACKET. Michelangelo Chicago Review Press This major new biography recounts the extraordinary life of one of the most creative figures in Western culture, weaving together the multiple threads of Michelangelo's life and times with a brilliant analysis of his greatest works. The author retraces Michelangelo's journey from Rome to Florence, explores his changing religious views and examines the complicated politics of

patronage in Renaissance Italy. The psychological portrait of Michelangelo is constantly foregrounded, depicting with great conviction a tormented man, solitary and avaricious, burdened with repressed homosexuality and a surplus of creative enthusiasm.

Michelangelo's acts of self-representation and his pivotal role in constructing his own myth are compellingly unveiled. Antonio Forcellino is one of the world's leading authorities on Michelangelo and an expert art historian and restorer. He has been involved in the restoration of numerous masterpieces, including Michelangelo's Moses. He combines his firsthand knowledge of Michelangelo's work with a lively literary style to draw the reader into the very heart of Michelangelo's genius. From the Mixed-Up Files of Mrs. Basil E. Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-winning novel From the Mixed-Up Files of Mrs. Basil E. Frankweiler. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort—she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too.

The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home. The Life of Michelangelo Bloomsbury Publishing USA
Art historian Simonetta Carr draws on recent scholarship that challenges the traditional view of Michelangelo as a recluse. Readers will also learn about the complex and fluid era of the Italian Renaissance and how the times affected his life and work. Lavish photos, informative sidebars, a time line, glossary, and suggestions for further readings add value, while 21 hands-on activities help young readers identify with the artist and his work. “And then it happened . . . a ray of illumination shot straight up and down to the left and the right, forming a pair of axes. My heart began to beat very fast, yet I didn't blink. I couldn't have taken my eyes off

what I was seeing if I had wanted to.” At the dawn of the new millennium, Joseph Pierce Farrell made a startling discovery that holds the potential to transform the world. Having abandoned his childhood dream of a career in healthcare, he had settled for a passionless job in real estate, lining his pockets while eroding his soul. Then one day he fell into a humble job restoring antiques and furniture. One evening while working in his basement studio, he drifted into a meditative state and permitted his mind to soar with the unlimited imagination of a child. In that moment, he experienced a brilliant, blinding flash that ignited within him a remarkable power. Since that transformative moment, he has restored the facial features of a severely disfigured young man, virtually erased an inoperable brain tumor, dramatically reversed the aging process of the faces of celebrities, and mended broken bones—simply with intention supported by a profound connection to a higher source. After a decade of his pioneering work exploring consciousness and its relationship to health and healing, Farrell was invited to present his findings internationally in academic settings, catapulting him to the cutting edge of the

integrative healthcare movement. Endorsed by leading researchers and medical doctors, Farrell’s body of evidence has begun to construct a bridge to permit science and spirituality to heal their divide and advance the emerging integrative healthcare model. In this unprecedented book, Farrell chronicles his journey of discovery and poignant stories of human transformation. He outlines an easy-to-follow five-step process that readers can use to ignite their own capacity to manifest change in their lives and the world. Heralding a message of unlimited possibility, *Manifesting Michelangelo* makes a compelling argument, supporting what science is beginning to embrace, what the great artists have always known, and what spiritual traditions have long promised—that we possess a latent capacity to manifest on the level of the miraculous. It is the first book that asks us to believe—based not on faith alone, but on eyewitness medical testimony, scientific evidence, and profound photos—that we have the capacity to manifest the change in the world that our conscience decrees and our hearts desire.

When he was born, Michelangelo Buonarroti was put into the care of a

stonecutter's family. He often said it was from them that he got his love of sculpture. It certainly didn't come from his own father, a respectable magistrate who beat his son when he asked to become an artists apprentice. But Michelangelo persevered. His early sculptures caught the attention of Florence's great ruler, Lorenzo de' Medici, who invited the boy to be educated with his own sons. Soon after, Michelangelo was astonishing people with the lifelike creations he wrested from marble--from the heartbreaking Pieta he sculpted when he was only twenty-five to the majestic David that brought him acclaim as the greatest sculptor in Italy. Michelangelo had a turbulent, quarrelsome life. He was obsessed with perfection and felt that everyone--from family members to his demanding patrons--took advantage and let him down. His long and difficult association with Pope Julius II yielded his greatest masterpiece, the radiant paintings in the Sistine Chapel, and his most disastrous undertaking, the

monumental tomb that caused the artist frustration and heartache for forty years. With her thoroughly researched, lively narrative and superbly detailed illustrations, Diane Stanley has captured the life of an artist who towered above the late Renaissance--and whose brilliance in architecture, painting, and sculpture amazes and moves us to this day. Book Council Manifesting Michelangelo Harper Collins "From 1501 to 1505, Leonardo da Vinci and Michelangelo Buonarroti both lived and worked in Florence. Leonardo was a charming, handsome fifty year-old at the peak of his career. Michelangelo was a temperamental sculptor in his mid-twenties, desperate to make a name for himself. The two despise each other."--Front jacket flap.

Picasso and the Painting That Shocked the World One of The Christian Science Monitor ' s Best Nonfiction Books of 2018 " An engrossing read...a historically and psychologically rich account of the young Picasso and his coterie in Barcelona and Paris " (The Washington Post) and how he achieved his breakthrough and revolutionized modern art through his masterpiece, Les Femmes d'Alger (O. J. R. No. 119). In 1900, eighteen-year-old Pablo Picasso journeyed from Barcelona to Paris, the glittering capital of the art world. For the next several years he endured poverty and neglect before emerging as the leader of a bohemian band of painters, sculptors, and poets. Here he met his first true love and enjoyed his first taste of fame. Decades later Picasso would look back on these years as the happiest of his long life. Recognition came first from the avant-garde, then from daring

collectors like Leo and Gertrude Stein. In 1907, Picasso began the vast, disturbing masterpiece known as Les Femmes d'Alger (O. J. R. No. 119). Inspired by the painting of Paul Cézanne and the inventions of African and tribal sculpture, Picasso created a work that captured the disorienting experience of modernity itself. The painting proved so shocking that even his friends assumed he ' d gone mad, but over the months and years it exerted an ever greater fascination on the most advanced painters and sculptors, ultimately laying the foundation for the most innovative century in the history of art. In Picasso and the Painting That Shocked the World, Miles J. Unger " combines the personal story of Picasso ' s early years in Paris—his friendships, his romances, his great ambition, his fears—with the larger story of modernism and the avant-garde " (The Christian Science Monitor). This is the story of an artistic

genius with a singular creative gift. It is “riveting... This engrossing book chronicles with precision and enthusiasm a painting with lasting impact in today’s art world” (Publishers Weekly, starred review), all of it played out against the backdrop of the world’s most captivating city. The Electric Michelangelo Simon & Schuster You cannot stand underneath the masterwork that is the Sistine Chapel without considering the genius and painstaking work that went into its creation. Michelangelo Buonarroti never wanted to paint the Sistine Chapel, though. Appointed by the temperamental Julius II, Michelangelo believed the suspiciously large-scale project to be a plot for failure conspired by his rivals and the “Warrior Pope.” After all, Michelangelo was not a painter—he was a sculptor. The noble artist reluctantly took on the daunting task that would damage his neck, back, and eyes (if you have ever strained to admire the real thing, you know). Andrew Graham-Dixon tells the story behind the famous painted ceiling over which the great artist painfully toiled for four long years. Linking

Michelangelo's personal life to his work on the Sistine Chapel, Graham-Dixon describes Michelangelo's unique depiction of the Book of Genesis, tackles ambiguities in the work, and details the painstaking work that went into Michelangelo's magnificent creation. Complete with rich, full-color illustrations and Graham-Dixon's articulate narrative, Michelangelo and the Sistine Chapel is an indispensable and significant piece of art criticism. It humanizes this heavenly masterpiece in a way that every art enthusiast, student, and professional can understand and appreciate. Michelangelo and the Sistine Chapel Cambridge University Press An account of the life of the revolutionary art master is told through the stories of six of his greatest masterpieces including the Pietà, David and the Sistine Chapel, revealing how each expanded the medium's range and reflected the trials of Michelangelo's personal world. Michelangelo W. W. Norton & Company Michelangelo’s adventure in Constantinople, from the “mesmerizing” (New Yorker) and “masterful” (Washington Post) author

of Compass In 1506, Michelangelo—a young but already renowned sculptor—is invited by the sultan of Constantinople to design a bridge over the Golden Horn. The sultan has offered, along with an enormous payment, the promise of immortality, since Leonardo da Vinci’s design was rejected: “You will surpass him in glory if you accept, for you will succeed where he has failed, and you will give the world a monument without equal.” Michelangelo, after some hesitation, flees Rome and an irritated Pope Julius II—whose commission he leaves unfinished—and arrives in Constantinople for this truly epic project. Once there, he explores the beauty and wonder of the Ottoman Empire, sketching and describing his impressions along the way, as he struggles to create what could be his greatest architectural masterwork. Tell Them of Battles, Kings, and Elephants—constructed from real historical fragments—is a thrilling page-turner about why stories are told, why bridges are built, and how seemingly unmatched fragments, seen from the

opposite sides of civilization, can mirror one another.

The Angel Inside Vintage
A dynamic and far-reaching dialogue with one of Europe's most influential contemporary artists about his vision of unifying art and everyday life. In 2013, at the age of eighty, Michelangelo Pistoletto was the subject of a six-month exhibition at the Louvre in Paris. Here, in an insightful, passionate, and humorous dialogue with his interviewer, Alain Elkann, he reflects on his legacy. Illustrated with more than two hundred photographs of his life and work, *The Voice of Pistoletto* demystifies the story of the growth of an artist, candidly discussing his inspirations; his relationships with gallerists, critics, and curators of great renown; and the comparisons and critiques of his fellow contemporary masters, from Magritte to Picasso, Koons to Cattelan, Giacometti to Bacon. The result is a conversational collage that illuminates Pistoletto's own creative life and gives readers a privileged view of the history of contemporary art in general.
