A dynamic and far-reaching dialogue with one of Europe's most influential contemporary artists about his vision of unifying art and everyday life. In 2013, at the age of eighty, Michelangelo Pistoletto was the subject of a six-month exhibition at the Louvre in Paris. Here, in an insightful, passionate, and humorous dialogue with his interviewer, Alain Elkann, he reflects on his legacy. Illustrated with more than two hundred photographs of his life and work, *The Voice of Pistoletto* demystifies the story of the growth of an artist, candidly discussing his inspirations; his relationships with gallerists, critics, and curators of great renown; and the comparisons and critiques of his fellow contemporary masters, from Magritte to Picasso, Koons to Cattelan, Giacometti to Bacon. The result is a conversational collage that illuminates Pistoletto's own creative life and gives readers a privileged view of the history of contemporary art in general.

This major new biography recounts the extraordinary life of one of the most creative figures in Western culture, weaving together the multiple threads of Michelangelo's life and times with a brilliant analysis of his greatest works. The author retraces Michelangelo's journey from Rome to Florence, explores his changing religious views and examines the complicated politics of patronage in Renaissance Italy. The psychological portrait of Michelangelo is constantly foregrounded, depicting with great conviction a tormented man, solitary and avaricious, burdened with repressed homosexuality and a surplus of creative enthusiasm. Michelangelo's acts of self-representation and his pivotal role in constructing his own myth are compellingly unveiled. Antonio Forcellino is one of the world's leading authorities on Michelangelo and an expert art historian and restorer. He has been involved in the restoration of numerous masterpieces, including Michelangelo's Moses. He combines his firsthand knowledge of Michelangelo's work with a lively literary style to draw the reader into the very heart of Michelangelo's genius.

The life of Michelangelo offers one of the most striking examples of the influence that a great man can have on his time. At the moment of his birth in the second half of the fifteenth century the serenity of Ghirlandajo and of Bramante illuminated Italian art. Florentine sculpture seemed about to languish away from an excess of grace in the delicate and meticulous art of Rossellino, Disiderio, Mino da Fiesole, Agostino di Duccio, Benedetto da Maiano and Andrea Sansovino. Michelangelo burst like a thunder-storm into the heavy, overcharged sky of Florence. Michelangelo di Lodovico Buonarroti Simoni or more commonly known by his first name

Michelangelo (6 March 1475 - 18 February 1564) was an Italian sculptor, painter, architect and poet of the High Renaissance born in the Republic of Florence, who exerted an unparalleled influence on the development of Western art.[1] Considered by some the greatest living artist during his lifetime, he has since been described as one of the greatest artists of all time.[1] Despite making few forays beyond the arts, his artistic versatility was of such a high order that he is often considered a contender for the title of the archetypal Renaissance man, along with his rival, the fellow Florentine and client of the Medici, Leonardo da Vinci. A number of Michelangelo's works of painting, sculpture and architecture rank among the most famous in existence.[1] His output in these fields was prodigious; given the sheer volume of surviving correspondence, sketches and reminiscences, he is the best-documented artist of the 16th century. He sculpted two of his best-known works, the Pietà and David, before the age of thirty. Despite holding a low opinion of painting, he also created two of the most influential frescoes in the history of Western art: the scenes from Genesis on the ceiling of the Sistine Chapel in Rome, and The Last Judgment on its altar wall. His design of the Laurentian Library pioneered Mannerist architecture.[2] At the age of 74, he succeeded Antonio da Sangallo the Younger as the architect of St. Peter's Basilica. He transformed the plan so that the western end was finished to his design, as was the dome, with some modification, after his death. Michelangelo was the first Western artist whose biography was published while he was alive.[1] In fact, two biographies were published during his lifetime. One of them, by Giorgio Vasari, proposed that Michelangelo's work transcended that of any artist living or dead, and was "supreme in not one art alone but in all three." [3] In his lifetime, Michelangelo was often called Il Divino ("the divine one"). [4] His contemporaries often admired his terribilità-his ability to instil a sense of awe. Attempts by subsequent artists to imitate[5] Michelangelo's impassioned, highly personal style resulted in Mannerism, the next major movement in Western art after the High Renaissance. Michelangelo, with Leonardo da Vinci and Raphael, is one of the three giants of the Florentine High Renaissance. Although their names are often cited together, Michelangelo was younger than Leonardo by 23 years, and older than Raphael by eight. Because of his reclusive nature, he had little to do with either artist and outlived both of them by more than forty years. Michelangelo took few sculpture students. He employed Francesco Granacci, who was his fellow pupil at the Medici Academy, and became one of several assistants on the Sistine Chapel ceiling. [40] Michelangelo appears to have used assistants mainly for the more manual tasks of preparing surfaces and grinding colours. Despite this, his works were to have a great influence on painters, sculptors and architects for many generations to come. While Michelangelo's David is the most famous male nude of all time and destined to be reproduced in order to grace cities around the world, some of his other works have had perhaps even greater impact on the course of art.

Giorgio Vasari, Florentine painter and architect, friend of Michelangelo and intimate of the Medici, is best known for his *Lives of the Most Excellent Painters, Sculptors and Architects*, published in 1550 and in an enlarged edition in 1568. With more than two hundred biographies, it has for centuries been recognized as a seminal text in art history and one of the most important sources on the Italian Renaissance. It is to Vasari that we owe much of our knowledge of Raphael (1483–1520), who in his day was considered perhaps the greatest painter of all time. Rich in colorful anecdotes, *The Life of Raphael* is important for its sustained attention to the range of Raphael's art, whose chronology and development Vasari describes in detail, together with the painter's ample love life and spectacular social career. It also pays attention, unprecedented for its time, to theoretical issues. This edition, introduced by the scholar Jill Burke, includes thirty pages of color illustrations covering the entire span of Raphael's oeuvre.

Blessed with a natural beauty, Scotland-born actress Deborah Kerr (1921–2007) provided the cinema with memorable studies of English gentility. A star in British pictures before she was 21 and a Hollywood fixture from 1946 on, she projected a cool reserve and stoic nobility, often hinting at passion and insecurity beneath the surface. Frequently portraying selfless, sympathetic women,

she was brilliant in such roles as Anna Leonowens in *The King and I* (1956). And in a fascinating departure from her normal range, her portrayal of the sexually frustrated Army wife in *From Here to Eternity* (1953) resulted in the screen's most famous "clinch"—the beach scene with Burt Lancaster. Though she never won an Academy Award despite six nominations, Deborah Kerr received an honorary Oscar in 1994.

Michelangelo was acutely conscious of living in an age of religious crisis and artistic change, and for him the two issues were related. Michelangelo and the Reform of Art explores Michelangelo's awareness of artistic tradition as a means of understanding his relation to the profound religious uncertainty of the sixteenth century. Concentrating on Michelangelo's lifelong preoccupation with the image of the dead Christ, Alexander Nagel studies the artist's associations with reform-minded circles in early sixteenth-century Italy, and reveals his sustained concern over the fate of religious art.

On the windswept front of Morecambe Bay, Cy Parks spends his childhood years first in a guest house for consumptives run by his mother and then as apprentice to alcoholic tattoo-artist Eliot Riley. Thirsty for new experiences, he departs for America and finds himself in the riotous world of the Coney Island boardwalk, where he sets up his own business as 'The Electric Michelangelo'. In this carnival environment of roller-coasters and freak-shows, Cy becomes enamoured with Grace, a mysterious immigrant and circus performer who commissions him to cover her entire body in tattooed eyes. Hugely atmospheric, exotic and familiar, *The Electric Michelangelo* is a love story and an exquisitely rendered portrait of seaside resorts on opposite sides of the Atlantic by one of the most uniquely talented novelists of her generation.

"Readers curious about the making of Renaissance art, its cast of characters and political intrigue, will find much to relish in these pages." —Wall Street Journal Giorgio Vasari (1511–1574) was a man of many talents—a sculptor, painter, architect, writer, and scholar—but he is best known for *Lives of the Artists*, which singlehandedly established the canon of Italian Renaissance art. Before Vasari's extraordinary book, art was considered a technical skill, and artists were mere decorators and craftsmen. It was through Vasari's visionary writings that Raphael, Leonardo, and Michelangelo came to be regarded as great masters of life as well as art, their creative genius celebrated as a divine gift. Lauded by Sarah Bakewell as "insightful, gripping, and thoroughly enjoyable," *The Collector of Lives* reveals how one Renaissance scholar completely redefined how we look at art.

Now available in a deluxe keepsake edition! A Time Best YA Book of All Time (2021) Run away to the Metropolitan Museum of Art with E. L. Konigsburg's beloved classic and Newbery Medal-winning novel From the Mixed-Up Files of Mrs. Basil E. Frankweiler. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort—she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.
