#### Michelin Fleet Solutions

Michelin Fleet Solutions was a good idea sought by the management after seeing the market dynamics which proved to be very favorable for such a business. Michelin was the leader in its business, but offered the

product at a very expensive rate.

In 2000, Michelin made a giant leap by expanding its remit from solely being a manufacturer of tires to becoming a service provider through the launch of the Michelin Fleet Solutions (MFS). Michelin's tires were traditionally priced at a premium and the

idea was to create a value-added service for large vehicles fleet operators.
