[Microeconomic Theory And Applications Ninth](#)

Microeconomics is an economic theory concerned with the actions of individuals, businesses, or modern households under certain economic conditions. The applications of microeconomics are vast, though they may not always be accurate as it is difficult to mimic the conditions of a real individual.

End-of-chapter problems present simple numerical/mathematical exercises, which strengthen your microeconomic intuition and are followed by more analytical, theoretical, behavioral, and complex problems. Unlike other more theoretical texts, MICROECONOMIC THEORY, 12E closely connects all theory to real applications in the world today.
