Lync 2010 client picture/user problem
Lync 2010 client really asks you for just the email address and the password of the user as it assumes that autodiscover is in place or you login to Office 365 . Ideally if using Office365 or any other Lync server that uses autodiscover, this would be fine but if you want to login to a corporate AD domain network that doesn't have this setup, this won't be enough.
