Plunkett's InfoTech Industry Almanac 2007 (E-Book) Plunkett Research, Ltd.

This reference book is a complete guide to the trends and leading companies in the engineering, research, design, innovation and development business fields: those firms that are dominant in engineering-based design and development, as well leaders in technology-based research and

development. We have included companies that are making significant investments in research and development via as many disciplines as possible, whether that research is being funded by internal investment, by fees received from clients or by fees collected from government agencies. In this carefully-researched volume, you'll get all of the data you need on the American Engineering & Research Industry, including: engineering market analysis, complete industry basics, trends, research trends, patents, intellectual property, funding, research and development data, growth companies, investments, emerging technologies, CAD, CAE, CAM, and more. The book also contains major statistical tables covering everything from total U.S. R&D expenditures to the total number of scientists working in various disciplines, to amount of U.S. government grants for research. In addition, you'll get expertly written profiles of nearly 400 top Engineering and Research firms - the largest, most successful corporations in all facets of Engineering and Research, all cross-indexed by location, size and type of business. These corporate profiles include contact names, addresses, Internet addresses, fax numbers, toll-free numbers, plus growth and hiring plans, finances, research, marketing, technology, acquisitions and much more. This book will put the entire Engineering and Research industry in your hands. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

According to the 1999 Salary Survey conducted by MCP Magazine, the average MCSE has 6.8 years of experience. The average self-employed MCSE consultant with 6 - 9 years of experience earns \$85,000 - that's over \$8,000 more than the average salary +bonus and benefits package of other MCSEs. There is a demand for MCSEs who can offer a variety of technical expertise and services, and this book will show readers how to create a successful consulting business. MCSE Consulting Bible walks readers through the issues to consider when making the decision to start their own consulting business and then offers key advice on each aspect of the business from deciding what services to offer, to marketing, to maintaining customer relationships.
