Plunkett's Engineering & Research Industry Almanac 2006: The Only Complete Guide to the Business of Research, Development and Engineering Plunkett Research, Ltd.

Social media initiatives, when effectively used and correctly monetized, can engage customers better and provide higher ROI rates than traditional marketing and sales initiatives. This book presents a selection of monetization strategies that can help companies benefit from social media initiatives and overcome the current challenges in connection with generating and growing revenues. Using cases and examples covering several social media platforms, the authors describe a variety of strategies and holistic solutions for companies. In addition, the book highlights the latest social media innovations, best business practices, successful monetization cases, and strategic trends in future social media monetization. Top executives need to read this book to have a big picture of corporate-wide "social strategy," form a "social mindset," and infuse a "social gene" into their company's culture, strategy, and business processes. Armed with these social elements, companies can gain confidence, effectively introduce social media tools, and invest in major social media initiatives. Due to changing consumer behavior, social media is also ideal for building and sustaining quality relationships with customers – which is why it is becoming an indispensable element in today's

business.

Plunkett's Entertainment & Media Industry Almanac 2006: The Only Complete Guide to the Technologies and Companies Changing the Way the World Shares En
Plunkett Research, Ltd.

The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title. Network World Plunkett Research, Ltd.
