You'll find microwaves available from 500 – 1,000 watts. In general, a 700-watt microwave should

boil a cup of room temperature water in 2 minutes and 30 seconds. Some dorms have a limit on the microwave wattage that's allowed, so if you're heading off to school, you should check this before making a decision.

Over-the-Range (OTR):
Combining a microwave and

range hood, an over-the-range microwave is an excellent choice for saving space and maximizing function. Get the added capability of lighting and venting with these models. Venting power is indicated as cubic feet per minute (CFM). When buying, remember the higher the CFM number, the greater the airflow.

An alternative to placing your countertop microwave on the counter is to buy a microwave cart that stands freely wherever you want in your kitchen. 2. Above the Range. Microwaves as range hoods mounted above the stove is a great placement location because that's often wasted space and the microwave ends up being eye-level.
