Some people seem to be born with a mental makeup that predestines them for success. But anyone can master their mindset. Dave Anderson shows you how. In *Intentional Mindset*, LearnToLead founder Dave Anderson shows you how to purposefully develop both killer instinct and mental toughness by cultivating and strengthening ten specific traits. The author of 15 books and host of the popular podcast *The Game Changer Life*, Dave's guidance has impacted readers and listeners in more than 145 countries. Now, he shares a unique

blueprint for developing the mindset you need to succeed, presenting foundational strategies for intentionally developing and strengthening what he calls the ACCREDITED traits: attitude, competitiveness, character, rigor, effort, discipline, intelligence, tenacity, energy, and drive. Throughout the book, readers will follow the progress of three "case studies." The frustrations, progress, and victories of "Fred," "Frank," and "Frances" will replace the sterile or academic approach so common in personal development books with a more readable, personal, and actionable experience. What's more, Anderson provides an optional 70-day follow-up course to integrate the book's lessons into one's daily routine and accelerate results. All materials for this course, including a downloadable workbook and 70 supporting

Times–bestselling author, this “must-read for thriller-lovers,” features a killer working his way to his true prey, one victim at a time (Heather Graham, New York Times–bestselling author of *Crimson Summer*). Each crime scene is eerily similar to the twisted fantasy of a serial killer now serving thirty years to life—a criminal brought to justice with the help of *Forensic Instincts*. Call. Kill. Repeat. But the similarities are more than one psychopath's desire to outdo another. As more red-haired victims are added to the body count, it becomes clear that each one has been chosen because of a unique connection to Casey—a connection that grows closer and closer to her. Now the *Forensic*

*Instincts* team must race to uncover the identity of the killer before his ever-tightening circle of death closes in on Casey as the ultimate target. As the stalker methodically moves in on his prey, his actions make one thing clear: he knows everything about Casey. And Casey realizes that this psychopath won't stop until he makes sure she's dead.

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock

---

Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
