An amazing, award-winning  
speculative fiction debut  
novel by a major new talent,  
in the vein of Ursula K. Le  
Guin. Global warming has  
changed the world's geography  
and its politics. Wars are  
waged over water, and China  
rules Europe, including the  
Scandinavian Union, which is  
occupied by the power state  
of New Qian. In this far  
north place, seventeen-year-  
old Noria Kaitio is learning  
to become a tea master like  
her father, a position that  
holds great responsibility  
and great secrets. Tea  
masters alone know the  
location of hidden water  
sources, including the  
natural spring that Noria's  
father tends, which once  
provided water for her whole  
village. But secrets do not  
stay hidden forever, and  
after her father's death the  
army starts watching their  
town—and Noria. And as water

becomes even scarcer, Noria must choose between safety and striking out, between knowledge and kinship. Imaginative and engaging, lyrical and poignant, Memory of Water is an indelible novel that portrays a future that is all too possible.
