Retired Army Special Forces Major John Burton and his team travel to Denver, Colorado, to kidnap the daughter of a wealthy communications magnate. The FBI is called in, the ransom is paid, and the chase is on. Up-and-coming FBI agent Sally Martin and her boss, Jack Donovan, are assigned to track down the kidnapper and his crew, but nothing is as it seems. The two agents follow their target through the south and up the East Coast until Burton disappears from sight. Months

later, the remains of a suspected crew member are found in the waters off the coast of the Bahamas, but what has happened to John Burton?

ERDA Energy Research Abstracts
Little Fish Publishing

A comprehensive and detailed reference guide on the integrity and safety of oil and gas pipelines, both onshore and offshore Covers a wide variety of topics, including design, pipe manufacture, pipeline welding, human factors, residual stresses, mechanical damage, fracture and corrosion, protection, inspection and monitoring, pipeline cleaning, direct assessment, repair, risk management, and abandonment Links modern and vintage practices to help integrity engineers better understand their system and apply up-to-date technology to older

infrastructure Includes case histories with examples of solutions to complex problems related to pipeline integrity Includes chapters on stress-based and strain-based design, the latter being a novel type of design that has only recently been investigated by designer firms and regulators Provides information to help those who are responsible to establish procedures for ensuring pipeline integrity and safety

Two fan-favorite stories of powerful men...wrapped around their babies' little fingers Billionaire's Jet Set Babies by Catherine Mann While cleaning a jet for entrepreneur Seth Jansen, Alexa Randall finds the strangest items: his one-year-old twins! Seth needs a temporary nanny; Alexa needs time for a one-on-one business pitch. So she says yes to an intimate stay on a lush Florida island—and yes to the man whose passion makes her question the choices she's made. The Nanny Bombshell by Michelle Celmer When Sierra Evans gave her twins up for adoption, she didn't expect tragedy to leave them in the care of their uncle, Coop Landon—a notorious playboy. Now Sierra will stop at nothing to protect her children—even if it means going undercover as the perfect nanny. But she doesn't expect the sizzling attraction that develops between her and Coop!

West's federal supplement. [First Series.] Routledge

While cleaning a jet for entrepreneur Seth Jansen, Alexa Randall finds the strangest items: his one-year-old twins Seth needs a temporary nanny;

Alexa needs time for a one-on-one business pitch. So she says yes to an intimate stay on a lush Florida island--and yes to the man whose passion makes her question the choices she's made. Living in luxury brings back memories of the world she left behind. The babies remind her of the family she once wanted. And the nights with Seth are...incomparable. This billionaire could be the man of her dreams--if he's not out of her league.

Environmental protection is a global issue. But most of the action is happening at the local level. How can communities keep their air clean, their water pure, and their people and property safe from climate and environmental hazards? Newly updated, The Environmental Planning Handbook gives local

governments, nonprofits, and citizens the guidance they need to create an action plan they can implement now. It ' s essential reading for a post-Katrina, post-Sandy world.

Environmental Organic Chemistry for Engineers clearly defines the principles of environmental organic chemistry and the role they play in forming remediation strategies. In this reference, the author explores parameter estimation methods, the thermodynamics, and kinetics needed to predict the fate, transports, and reactivity of organic compounds in air, water, and soils. The book's four part treatment starts with the classification of organic molecules and physical properties of natural organic matter, halocarbons, phenols, polyaromatic hydrocarbons, organophosphates, and surfactants. An overview of remediation technologies and a discussion of the interactions that lead to physical properties that affect chemical distribution in the environment is also detailed, as are the important reaction classes of organic molecules, including substituent effects and structure and activity relationships found in Part Two and Three. Part four is devoted to the strengths and weaknesses

of different remediation technologies and when they should be employed. Clearly defines the principles of environmental organic chemistry and the role they play in forming remediation strategies Includes the tools and methods for classifying environmental contaminants found in air, water, and soil Presents a wide-range of remediation technologies and when they should be deployed for maximum effect

The Iron Age Harlequin

A charming, practical, and unsentimental approach to putting a home in order while reflecting on the tiny joys that make up a long life. In Sweden there is a kind of decluttering called *dö st ä dning*, *dö* meaning “ death ” and *st ä dning* meaning “ cleaning. ” This surprising and invigorating process of clearing

out unnecessary belongings can be undertaken at any age or life stage but should be done sooner than later, before others have to do it for you. In *The Gentle Art of Swedish Death Cleaning*, artist Margareta Magnusson, with Scandinavian humor and wisdom, instructs readers to embrace minimalism. Her radical and joyous method for putting things in order helps families broach sensitive conversations, and makes the process uplifting rather than overwhelming. Margareta suggests which possessions you can easily get rid of (unworn clothes, unwanted presents, more plates than you ’ d ever use) and which you might want to keep (photographs, love letters, a few of your children ’ s art projects). Digging into her late husband ’ s tool shed, and her own secret drawer of vices, Margareta introduces an element of fun to a potentially daunting task. Along the way readers get a glimpse into her life in Sweden, and

also become more comfortable with the idea of letting go.
