God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, *A Walk in the Woods* will add a whole new audience to the legions of Bill Bryson fans.

*I Went for a Walk The World Of Hidden Thoughts*

"As a kid growing up in Manhattan, William Helmreich played a game with his father they called "Last Stop." They would pick a subway line and ride it to its final destination, and explore the neighborhood there. Decades later, Helmreich teaches university courses about New York, and his love for exploring the city is as strong as ever. Putting his feet to the test, he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs—an astonishing 6,000 miles. His epic journey lasted four years and took him to every corner of Manhattan, Brooklyn, Queens, the Bronx, and Staten Island. Helmreich spoke with hundreds of New Yorkers from every part of the globe and from every walk of life, including Mayor Michael Bloomberg and former mayors Rudolph Giuliani, David Dinkins, and Edward Koch. Their stories and his are the subject of this captivating and highly original book. We meet the Guyanese immigrant who grows beautiful flowers outside his modest Queens residence in order to always remember the homeland he left behind, the Brooklyn-raised grandchild of Italian immigrants who illuminates a window of his brownstone with the family's old neon grocery-store sign, and many, many others. Helmreich draws on firsthand insights to examine essential aspects of urban social life such as ethnicity, gentrification, and the use of space. He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan."—Publisher's description.

The doomed Chinese city of Shunkien was being systematically destroyed. Japan's war machine was pounding wreckage into ashes—wiping out a city that had thrived since the time of Genghis Khan. One of the few buildings still standing is the American consulate where one hundred and sixteen US refugees are facing almost certain death, either from high explosives, the ravages of starvation or Asiatic cholera. Unbeknownst to the refugees, their fate rests in the hands of one Marine—Gunnery Sergeant James Mitchell—and his ability to negotiate two hundred miles of occupied territory in order to bring desperately needed gold and medicine, while overcoming bullets, dive bombers, butchery and his own personal nemesis—alcohol. Add to these seemingly insurmountable odds, a seductive American fan-dancer who hitches along for the ride and saving the lives of the hostages is far from a fait accompli. As a young man, Hubbard visited Manchuria, where his closest friend headed up British intelligence in northern China. Hubbard gained a unique insight into the hostile political climate between China and Japan—a knowledge that informs stories like *Orders Is Orders*. In addition, he served as a First Sergeant with the 20th United States Marine Corps Reserve—giving him first-hand knowledge of what it means to be a Marine. "Demonstrating his unique ability to relate even to the most complicated story with a keen eye for detail and realism, Hubbard's stunning writing ability and creative imagination set him apart as one of the greatest literary figures of the 20th century."—Publishers Weekly #NewGoldenAge

In February 2016, Gabriel Stewart embarked on a walk around the UK with just a backpack, a camera and a tent for company. With little previous experience of hiking or camping on his own, it was always going to be an interesting one. This isn't your typical hiking book, wittering on about the cold fierce winds battering Gabriel's determined face as he treads across a mountainside. It's an exploration of the mind of a confused, self-deprecating eighteen- to nineteen-year-old boy as he dabbles and dabbles in everything from mental health problems to the fake radio voice of Hugh Fearnley-Whittingstall. 'I will walk a thousand miles and it will be for charity - and maybe some other reason which I may or may not discover at some point in a random soggy British field.' That pretty much sums up the logic. *I Went for a Walk* is the story of how it all went spectacularly wrong.

Glenda Armand imagines Frederick Douglas as a young boy in 1820s Maryland, trying to understand why he can't live with his mother, who is a slave on another plantation. During a brief night-time visit, Mama answers Frederick's questions by describing what each mile of her journey is for - remembering, listening, praying, singling, and finally, love. Her strength to travel the distance between them is a poetic testament to the human spirit, showing Frederick that although the road through life is full of hardships, hope, joy, and dreams can grow along the way.

"There are multiple sides to all of us. Who we are and who we might be if we follow our dreams." -Miley Cyrus Three years ago, Miley Cyrus was a virtual unknown. Her life in rural Tennessee was filled with family, friends, school, cheerleading, and the daily tasks of living on a farm. And then came a little show called Hannah Montana. Almost overnight, Miley would rocket to superstardom, becoming a television and singing phenomenon. Quiet days were replaced with sold-out concerts, television appearances, and magazine shoots. But through it all, Miley has remained close to her family and friends and has stayed connected to the Southern roots that made her so strong. In *Miles to Go*, Miley offers an honest, humorous, and often touching story of one girl's coming-of-age—from private moments with her pappy to off-roading with her dad, Billy Ray, to her run-ins with mean girls. Miley talks about suffering through drama and heartbreak and coming out the other end unscathed (relatively). And now for the first time, she will discuss it all—the milestones still left to reach (driver's license! voting!), dreams to live out (travel to Asia! find true love!), and the lessons to be learned (remembering to enjoy every moment!). This is a truly unique look inside the world of one of today's biggest and brightest stars as she tackles looking back and moving forward.

21 days without power. 2 brothers on a desperate trek. 72 hours before time runs out... The Lockwood brothers are supposed to be able to survive anything. Their dad, a hardcore believer in self-reliance, has stockpiled enough food and water at their isolated Nevada home to last for months. But when they are robbed of all their supplies during a massive blackout while their dad is out of town, John and Stew must walk 96 miles in the stark desert sun to get help. Along the way, they're forced to question their dad's insistence on self-reliance and ask just what it is that we owe to our neighbors, to our kin, and to ourselves. From talented newcomer J. L. Esplin comes this story of survival and determination as two young brothers confront the unpredictability of human nature in the face of desperate circumstances. *Miles to Go* Balboa Press

A transformative collection of essays on the power of walking to connect with ourselves, each other, and nature itself. In 2010, Jonathon Stalls and his blue-heeler husky mix began their 242-day walk across the United States, depending upon each other and the kindness of strangers along the way. In this collection of essays, Stalls explores walking as waking up: how a cross-country journey through the family farms of West Virginia, the deep freedom of Nevada's High desert, and everywhere in between unlocked connections to his deepest aches and dreams--and opened new avenues for renewal, connection, and change. While most of us won't walk or roll across the country, the deep wisdom and insights that Stalls receives from the people, land, and animals he meets on his pilgrimage have profound impacts for each of us. He shares how walking deepened his relationship to himself as a gay man, offering deep and clarifying emotional medicine. He confronts the systemic racism, classism, and ableism that shape and reshape the communities he walks through. And he invites readers to become awakened activists, to begin healing our culture's profound separation from the natural world. WALK is for those who crave to feel and embody, not just know and study, their way through complex themes that live in each chapter: vulnerability, human dignity, presence, mystery, and resistance. With dedicated practices--like connecting to Earth stewardship, moving into vulnerability, and walking and rolling with intention--Stalls' WALK is an urgent and glorious call to slow down, look around, and engage with the world in front of us. It awakens us to what we miss when we're driving by, flying over, and rushing past what surrounds us. It's an invitation to move, to connect, to participate deeply in the world--and to dissolve the barriers that disconnect us from each other and the living Earth.

At the age of 45 Miles Morland resigned from his highly paid job as head of the UK division of a major American bank and went for a walk with his wife in France. Neither of them was used to walking further than the distance between a restaurant and a waiting taxi. They walked from the Mediterranean to the Atlantic, 350 miles through the foothills of the Pyrenees, staying in small country inns and occasionally sleeping out along the way. The author describes the pleasures and agonies of the walk and reflects frequently and with relief on the life from which he has escaped. The pressures of his former life had affected him in many ways, the repercussions including divorce and then remarriage to his former wife Guislaine.

In April 2015, Beth and Eric Jusino, laden with backpacks and nerves, walked out of a cathedral in the historic village of Le Puy, France, down a cobblestone street, and turned west. Seventy-nine days, a thousand miles, two countries, two mountain ranges, and three pairs of shoes later, they reached the Atlantic Ocean. More than two million

pilgrims have walked the Way of Saint James, a long-distance hiking trail familiar to most Americans by its Spanish name, the Camino de Santiago. Each pilgrim has their own reason for undertaking the journey. For the Jusinos, it was about taking a break from the relentless pace of modern life and getting away from all their electronic devices. And how hard could it be, Beth reasoned, to walk twelve to fifteen miles a day, especially with the promise of real beds and local wine every night? Simple. It turned out to be harder than she thought. Beth is not an athlete, not into extreme adventures, and, she insists, not a risk-taker. She didn't speak a word of French when she set out, and her Spanish was atrocious. But she can tell a story. In *Walking to the End of the World*, she shares, with wry humor and infectious enthusiasm, the joys and travails of undertaking such a journey. She evocatively describes the terrain and the route's history, her fellow pilgrims, and the villages passed, and the unexpected challenges and charms of the experience. Beth's story is also about the assurance that an outdoor-based, boundary-stretching adventure is accessible to even the most unlikely of us. In her story, readers will feel that they, too, can get off their comfortable couches and do something unexpected and even spectacular. *Walking to the End of the World* is a warm-hearted and engaging story about an average couple going on an adventure together, tracing ancient paths first created in the tenth and eleventh centuries, paths that continue to inspire and reveal surprises to us today in the twenty-first.
