A booby trap is a device or setup that is intended to kill, harm, or surprise a human being or an animal. It is triggered by the presence or actions of the victim and sometimes has some form of bait designed to lure the victim towards it. The trap may be set to act upon trespassers that enter restricted areas, and it can be triggered when the victim performs an action. It can also be triggered by vehicles driving along a road, as in the case of improvised explosive devices. Booby traps should no Army Field Manual - Booby Traps - CH Kadels

Booby traps could be incredibly simple or startlingly complex and ingenious, ranging from pointed sticks to command-detonated submerged floating river mines. Besides a wide variety of booby traps, they also used land and water mines, both contact/pressure-detonated and command-detonated.

The phrase booby trap originally applied to schoolboy pranks, but took on its more sinister connotation during World War I. Military booby traps [edit | edit source] A group of 105mm artillery shells with plastic explosive stuffed into their fuze pockets. Each of the 5 shells has been linked together with red detcord to make them detonate simultaneously. To turn this assembly into a booby trap, the final step would be to connect an M142 firing device to the detcord and hide everything under ...
