covers US, Japanese, German, British, Soviet, Chinese, and Korean booby trap methods. In this book, you get decades of knowledge on the materials, devices and standard ammunition items used, plus, improvisations, installation and detection.

*FM 5-31 (ARMY FIELD MANUAL 5-31), BOOBY TRAPS (14 SEPT 1965)*  
This book is nothing more than a rehash of a 50 year old Army field manual with a new cover. It describes how to construct and deconstruct booby traps usually using military grade explosives, det cord, blasting caps and triggers. This is the same book I used going thru combat engineer school in 1981.

Other military manuals are more general in their description and stress that booby-traps associated with objects in normal civilian daily use are prohibited, and that booby-traps must not be used in association with protected persons, protected objects (such as medical supplies, gravesites and cultural or religious property) or internationally recognized protective emblems or signs (such

as the red cross and red crescent).
